Administrative & Academic Tasks
At Your Fingertips!

Welcome to Next Education

Dear Education Enthusiasts,

We, at Next Education are committed to raising the bar by bridging the gap between literacy and education. We aspire to fuel the latent potential of every child we touch. Our immersive, exploratory, and tech-integrated **K-12 education solutions** and services ensure that the user discovers their innate calibre to the fullest. At Next Education, with nearly **two decades** of R&D, we are pleased to offer you a wide range of end-to-end resources and **SaaS-based products** for schooling and self-learning expeditions.

We also solemnly understand the specific needs and requirements of our educators! Thus, we enable our teachers and schools to reach their zenith by providing seamless teaching aids, prompt guidance, cutting-edge content, and detailed manuals to promote a cohesive teaching-learning environment.

Moreover, organic and holistic progression is at the core of each of our offerings. Therefore, seeing the growing demands of the 21st Century, we have left no stone unturned to streamline global citizen ambitions while simultaneously nurturing the competitive, digitalised, and fast-paced necessities of our future generations!

So, Come! Explore the next with Next Education, where education is always with a cause!

Administrative Management System

NextOS' ***NextERP*** system is loaded with best-in-industry features to streamline a school's administrative operations.

Admission

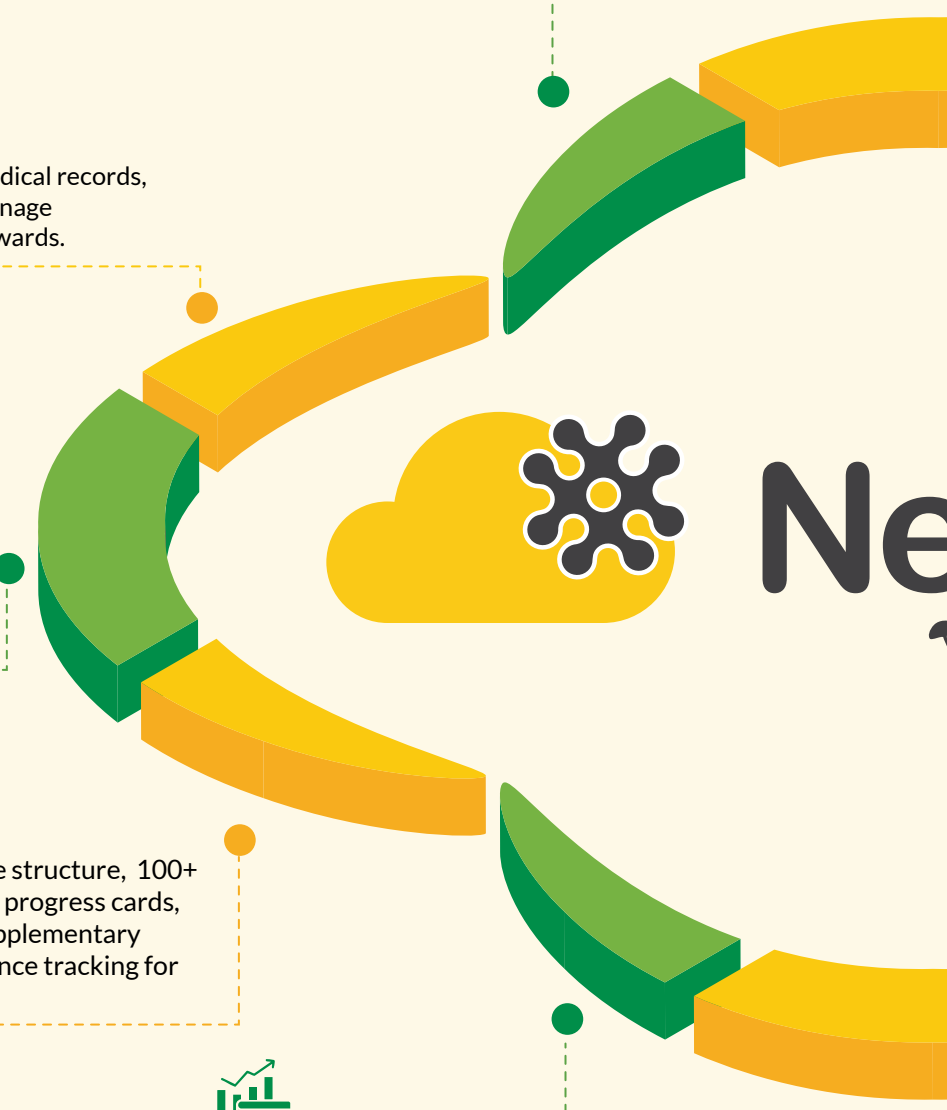
Streamline the admission process with configurable multi-tier workflows, secure OTP-based enquiries, seamless online applications, fee collection, and real-time tracking with automated communication.

Student Profile

Gain a 360-degree view of student profiles with access to personal details, fee payments, exam trends, documents, medical records, and performance analysis throughout the year.

Wellness

A centralised hub to maintain complete medical records, track health statuses, log incidents, and manage category-based discipline feedback and rewards.



Communication

Enhance school communication with multi-channel alerts (SMS, Email, Notifications, WhatsApp), pre-configured templates, secure app-to-app parent-teacher chat, DLT-enabled messaging, and faster announcements via the School Feed.

Examination

Simplify examinations with a configurable structure, 100+ customisable report card designs, holistic progress cards, mobile-based marks entry, automated supplementary exams, and year-wise academic performance tracking for both teachers and students.

Fee Management

Boost fee management with customisable structures, automated concessions, secure online payments, cheque tracking, bulk uploads, collection locking, on-demand customised and 45+ ready-to-use reports, and much more.

Front Office

Streamline visitor management with enhanced security through OTP authentication for visitors and escorts, and manage crowds during events with easy mobile app access for school guards.

Inventory

Efficiently manage assets and supplies with multi-store functionality, location-based transfers, and asset mapping with reports for audits and tracking.

Payroll

Effortlessly manage salary disbursal with configurable allowances and deductions in compliance with the 7th Pay Commission. Easily integrate and track attendance, leaves, and advances and loan with bank-ready reports.

Timetable

Effortlessly design timetables using the automated and manual options. Through the aSc integration, skill-based automatic substitutions and flexible ad hoc scheduling to accommodate holidays and extra classes are now more convenient than ever.

Transport

Get vehicle attendants' details and real-time tracking with mobile GPS integration and effortlessly adjust fees for service reallocations.

Add-On Integration

Unlock limitless possibilities with our single platform integration of essential add-ons such as Geo-Facial Technology, Biometrics, RFID, Face Recognition, Mobile NFC, mobile GPS, Tally for Accounting, On-demand White-Labeling for Android & iOS apps, and much more.

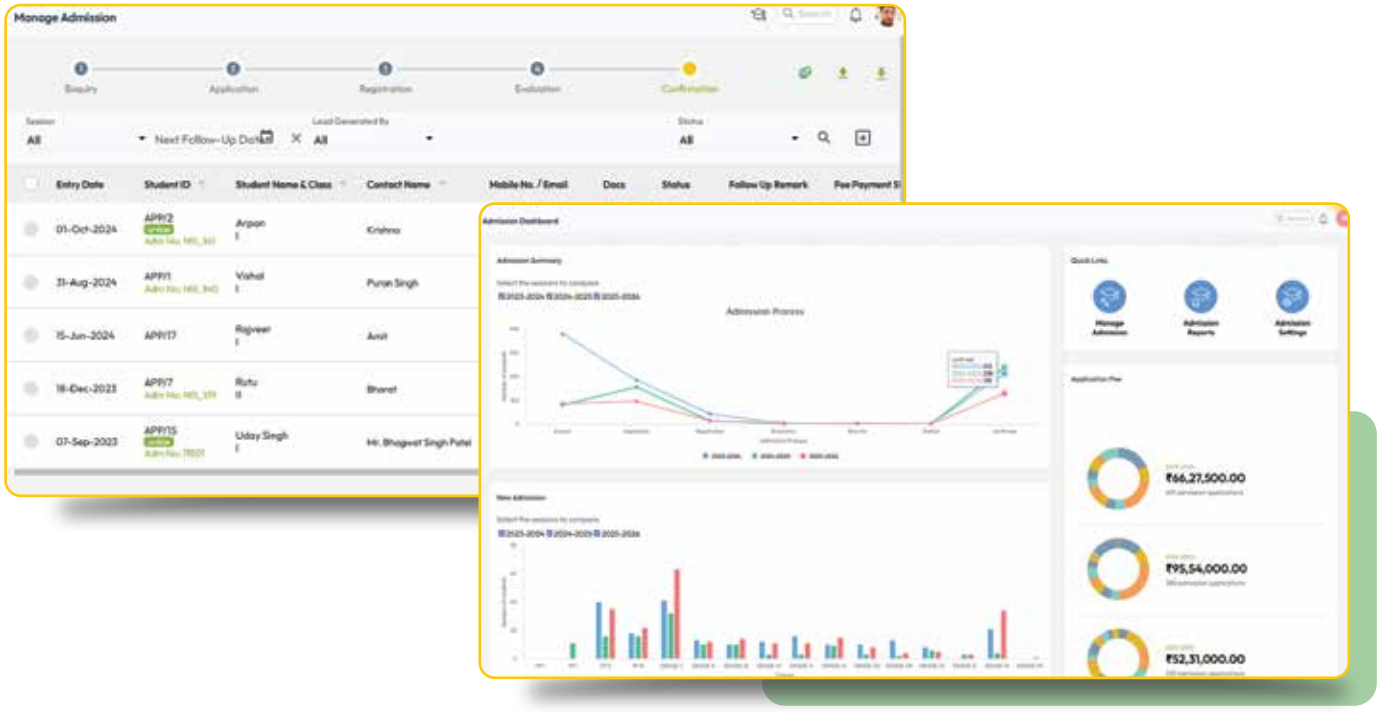
Next.ERP

School Management Simplified

Features At A Glance

1. Revolutionise the Admission Process With Seamless Automation:

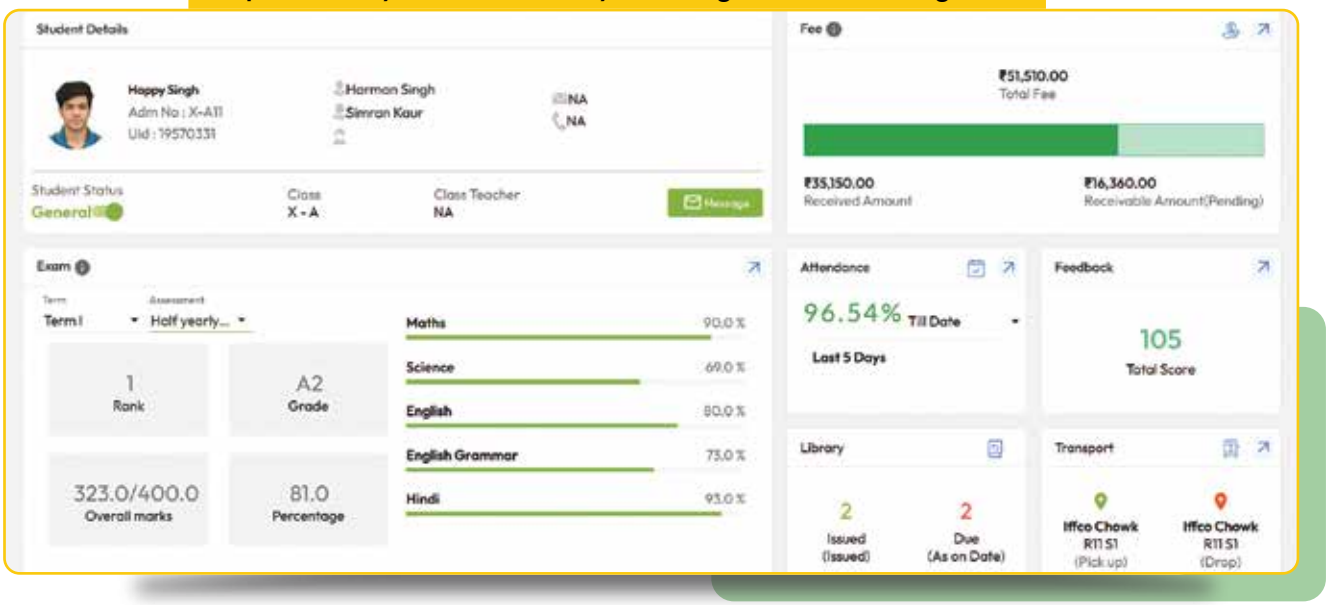
- Simplifies admission with a fully configurable multi-tier process.
- Ensures safety with OTP security for both walk-in and online enquiries.
- Allows parents to submit applications anytime, anywhere.
- Enables hassle-free fee collection with integrated payment gateways.
- Effortless bulk upload admission entries at any time.
- Record and track prospective enrollments through a smart follow-up mechanism.



2. Empower Every Student's Journey With Single-Window Management:

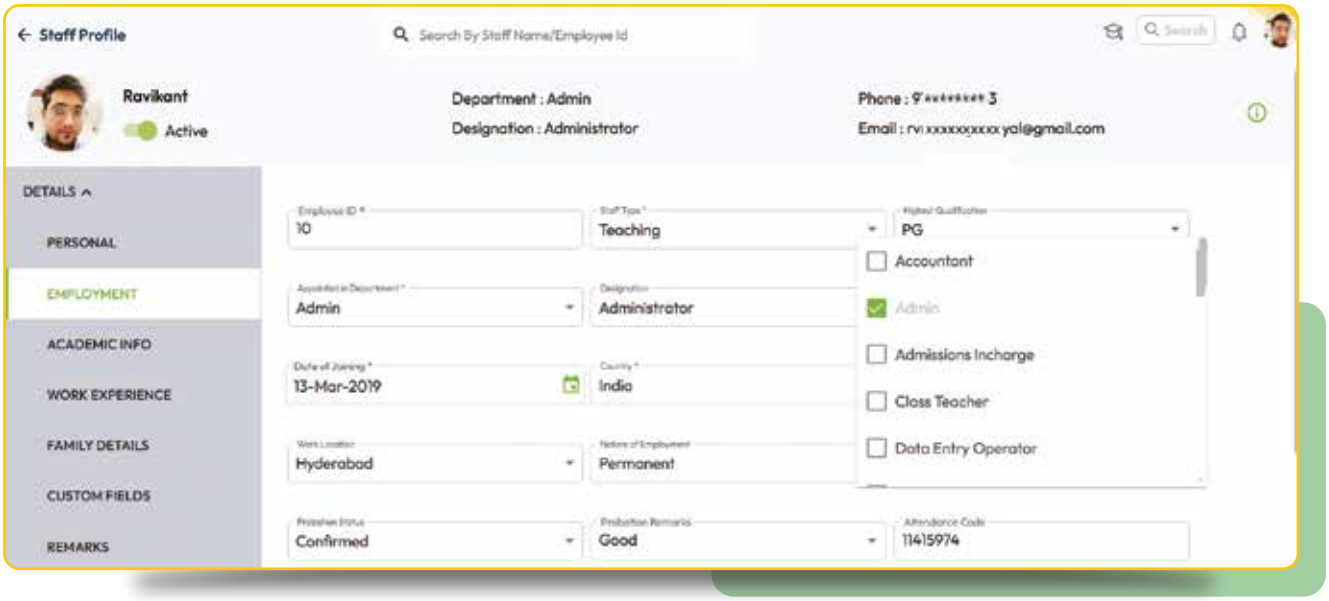
- Gain access to a 360° view of student information at a glance.
- Easily generate key certificates and letters with ready-to-use templates.
- Create professional ID cards with sleek, ready-to-use designs.
- Streamline student exits with NOCs.
- Securely store unlimited documents in the cloud, accessible at any time.
- Streamline future session fee collection with provisional promotions.
- Instantly access all data with a single click.

Empower Every Student's Journey With Single-Window Management



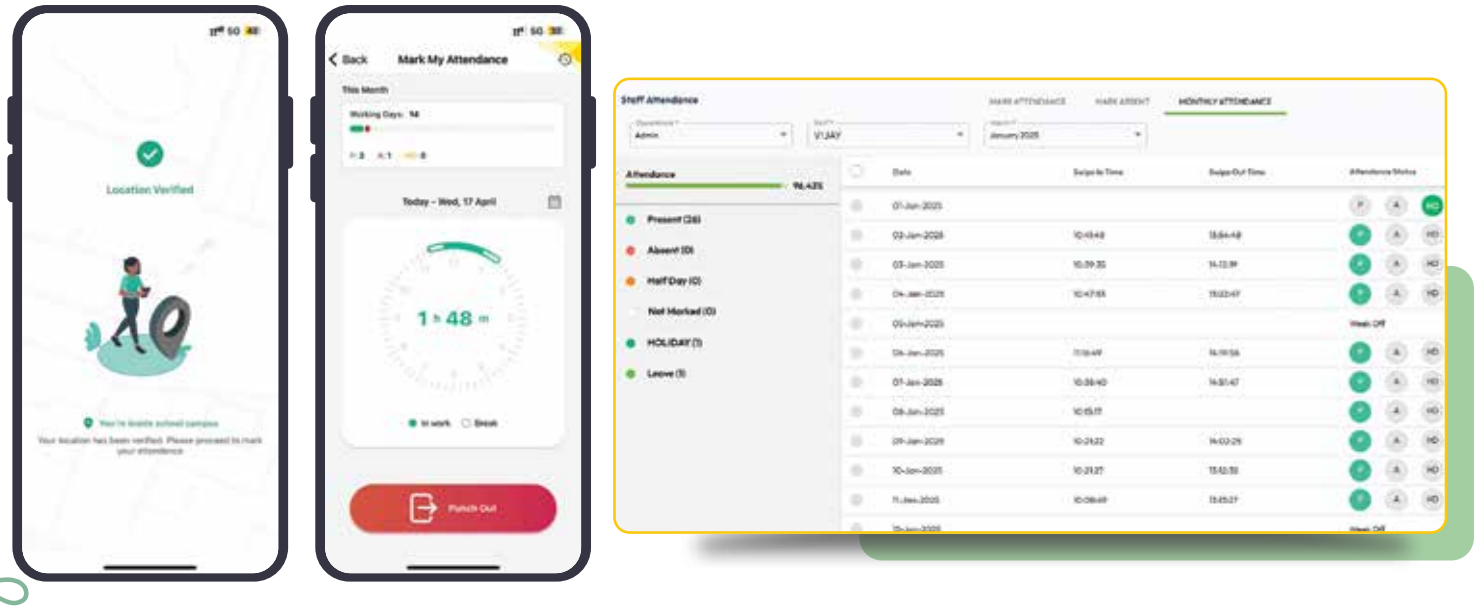
3. Boost Staff Management With Powerful Inbuilt Features:

- Effortlessly manage staff data for streamlined operations.
- Instantly create professional ID cards with ready-to-use designs.
- Ensure smooth staff exits with proper settlements.
- Experience a comprehensive HRMS with a single-window solution.
- Enhance security and efficiency with Role-Based Access.
- Track and manage teacher competency for continuous performance improvement.
- Organise staff hierarchy for improved coordination.



4. Streamline Attendance With Cutting-Edge Technology:

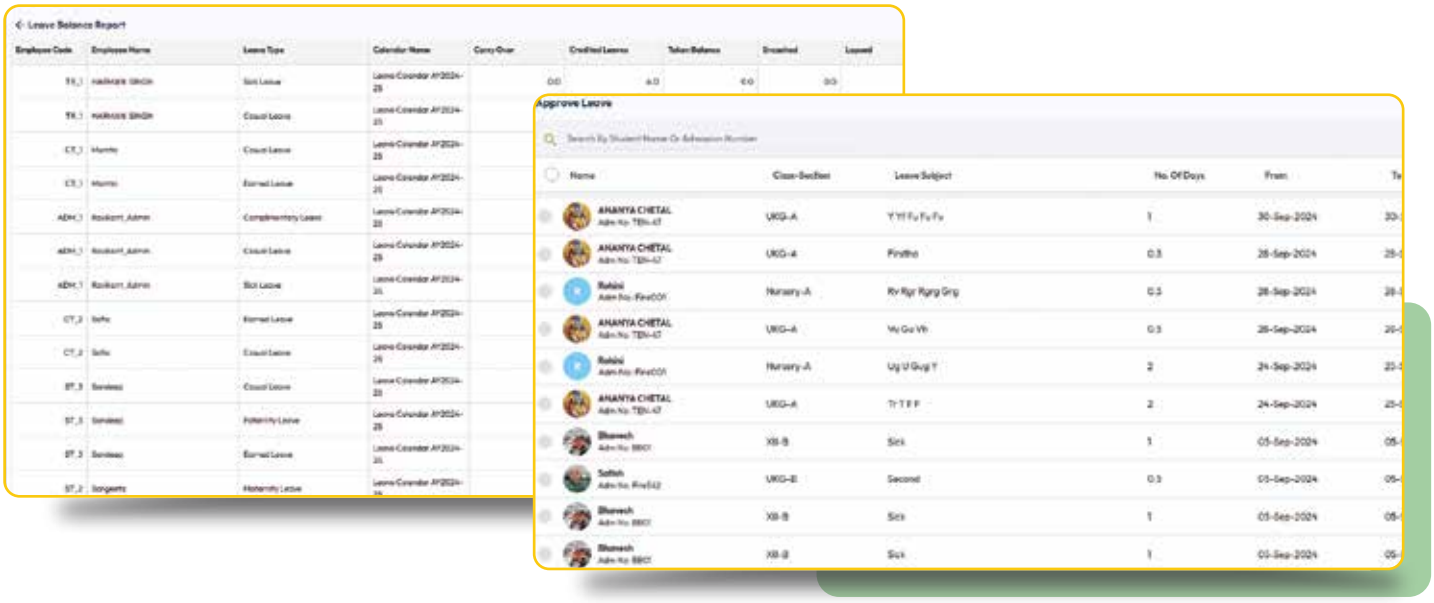
- Automate attendance with RFID, NFC, Biometric, Face Recognition, Geo-Facial, and Wireless Gate Integrations.
- Simplify manual marking with the ‘Mark Absent’ feature.
- Monitor every lecture with period-wise attendance tracking.
- Enhance attendance marking with a ‘Roll-Call’ facility on the teachers’ mobile app.
- Effortless communication with parents of absentee students.
- Automatic calculation of Present, Absent, and Half-Day statuses with shift settings.



5. Efficient Leave Management With Flexible Features:

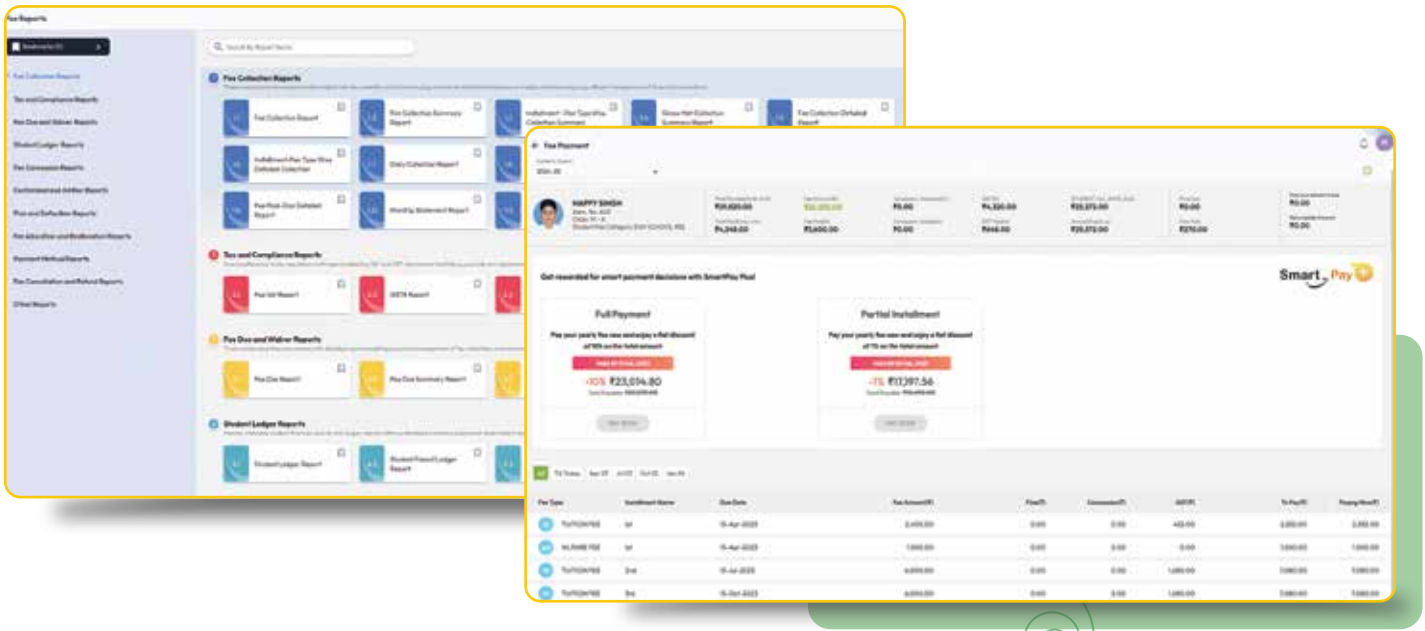
- Customisable leave types with advanced control on leaves during holidays.
- Handle gender-specific paternity and maternity leaves.
- Easy leave application for parents and staff with restricted student access.
- Admin access to manage offline leave applications.
- Auto-adjustment of leaves on a priority basis.
- Mobile app approval for on-the-go convenience for teachers, principals, and admins.

Efficient Leave Management With Flexible Features

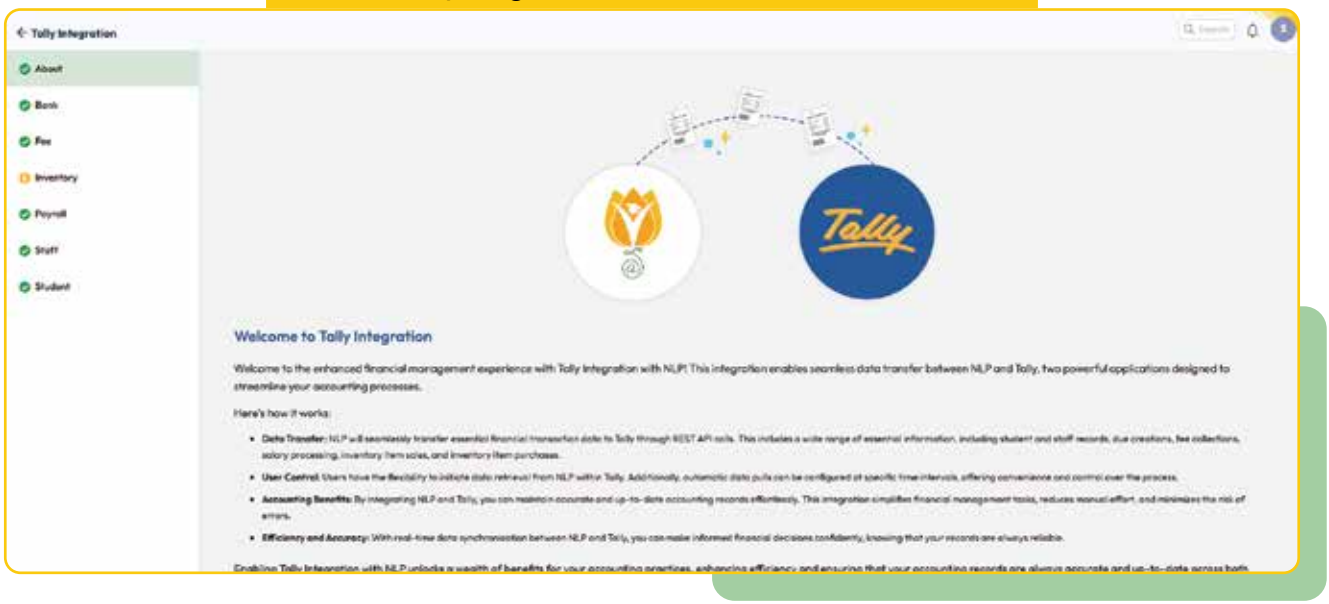


6. Seamless Fee Management With Flexible Features:

- Get flexible billing options for students within the same class.
- Streamline fee collection with bulk uploads.
- Effortlessly track cheque payments from receipt to realisation.
- Ensure accuracy with unique IDs via autonumbering.
- Maintain full control over security deposit amounts until the refund processes.
- Empower parents with secure online payments.
- Automate fines and concessions with advanced features such as Sibling, Staff Ward, and Smart Pay.
- Quickly generate paid and due certificates using ready-to-use templates.
- Seamless Tally Integration for Effortless & Automated Fee Management!.
- Securely lock fees, enabling enhanced control and financial security.
- Access 45+ insightful reports to track collections, dues, fines, and more.
- Create fully customised reports to meet your institution's unique needs.



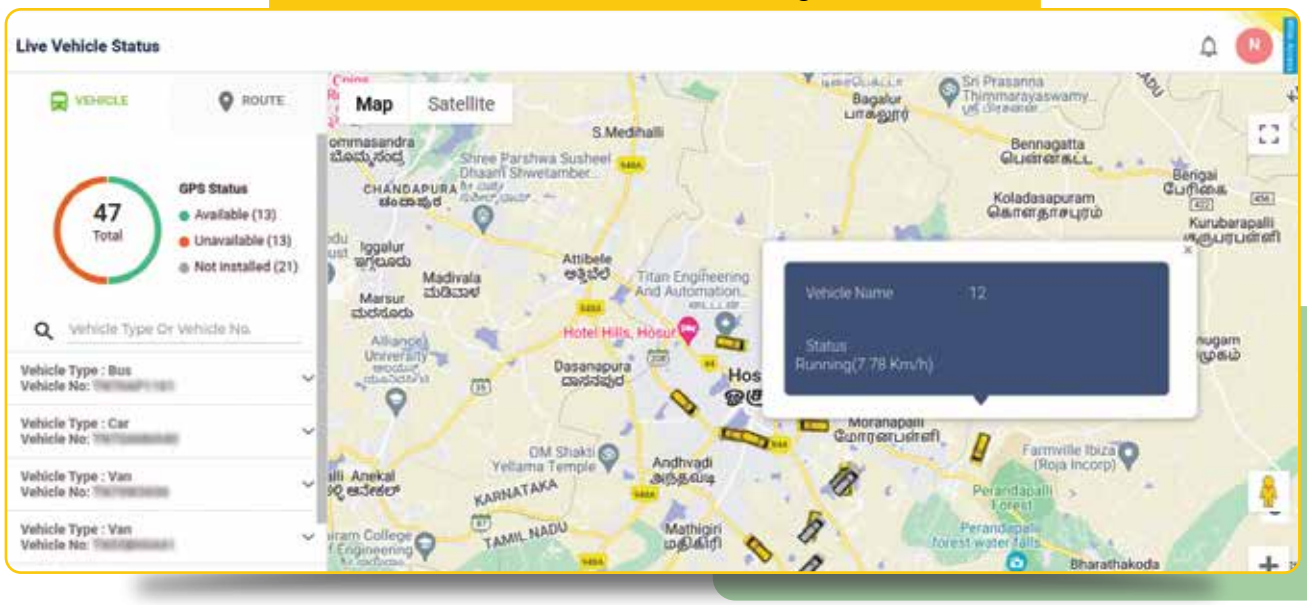
Tally Integration for Effortless Automation



7. Elevate School Transportation Experience With Smart Features:

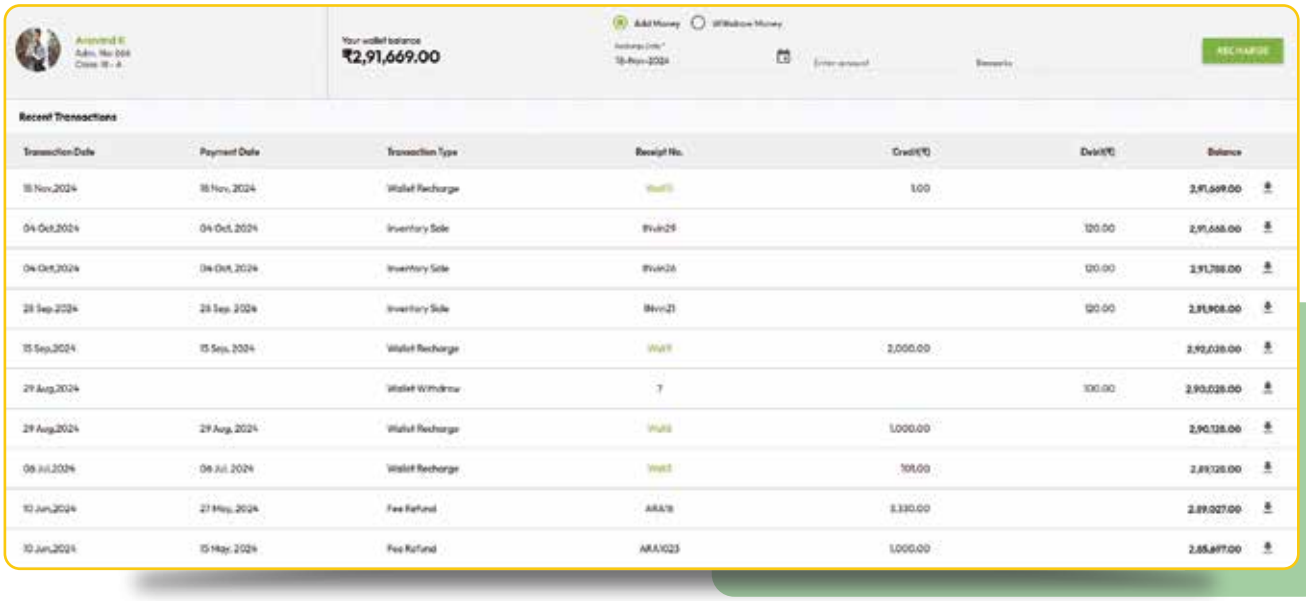
- Configure routes and stops as per your feasibility.
- Assign transport fees flexibly with pro-rata configurations.
- Define geo-locations effortlessly from the front end.
- Ensure accurate tracking with GPS integration.
- Utilise mobile GPS as a convenient alternative for vehicle tracking.
- Enhance safety with NFC card-based transport attendance.
- Simplify fee adjustments for seamless service reallocations.
- Communicate directly with targeted parents during disruptions or route changes.

Real Time Vehicle Tracking



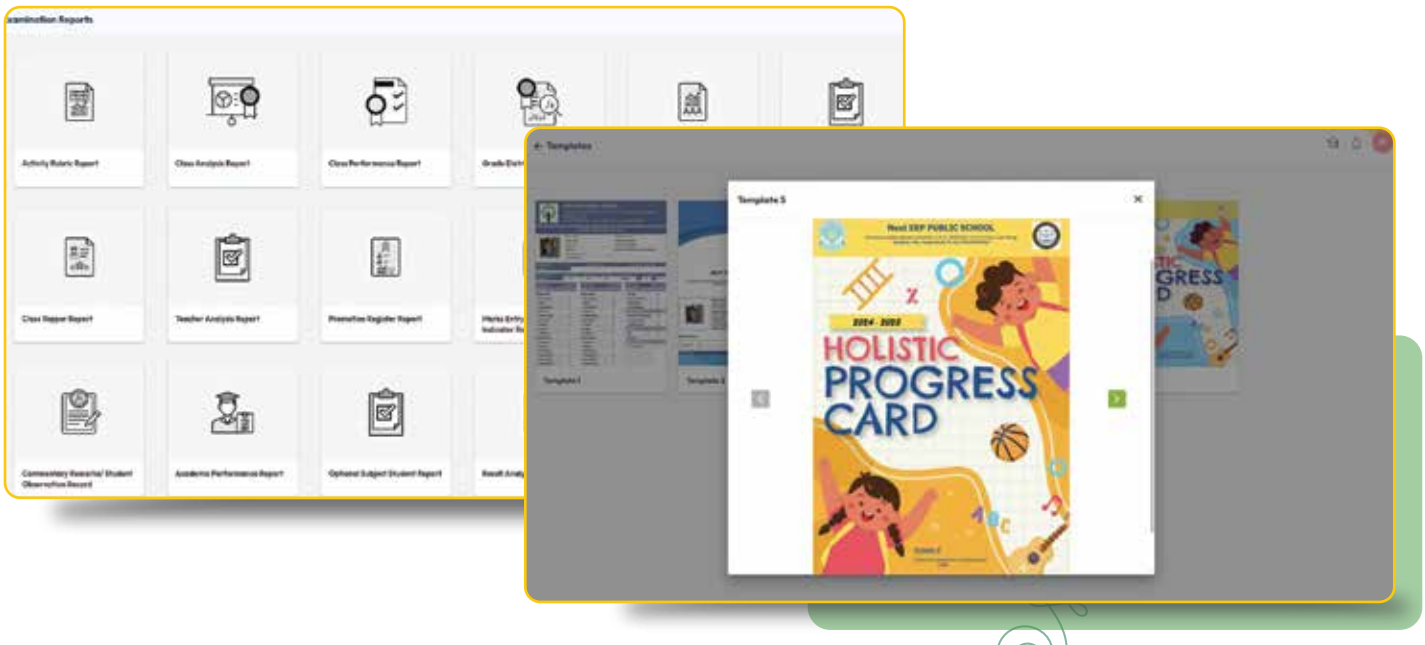
8. Seamless Cashless Transactions With Student Wallet:

- Convenient cashless transactions for both schools and parents.
- Allow parents to make advance deposits for their childs expenses.
- Use your secured wallet amounts for fee payments, inventory purchases, pocket money, etc.



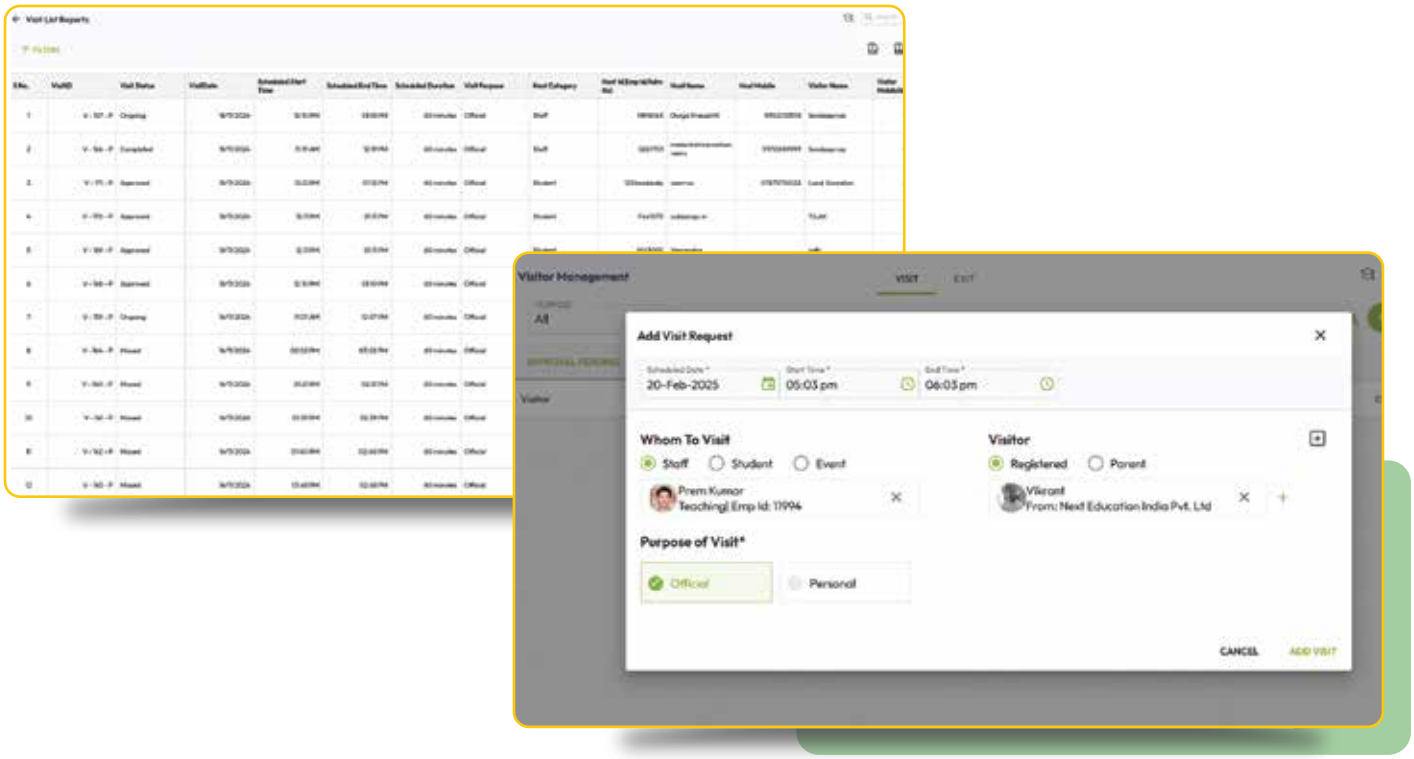
9. Flawlessly Conduct Exams With Configurable Features:

- Design the perfect examination structure tailored to your institution's needs.
- Seamlessly summarise and calculate marks.
- Access and customise 100+ ready-to-use templates for report cards.
- Generate, track, and publish Holistic Progress Cards (HPC) in compliance with board guidelines.
- Go paperless by displaying weekly, monthly, and annual progress reports online.
- Create visually compelling report cards with dynamic graphs.
- Effortlessly generate hall tickets using pre-set templates.
- Automate supplementary exams.



10. Seamless Visitor & Event Management With Robust Security:

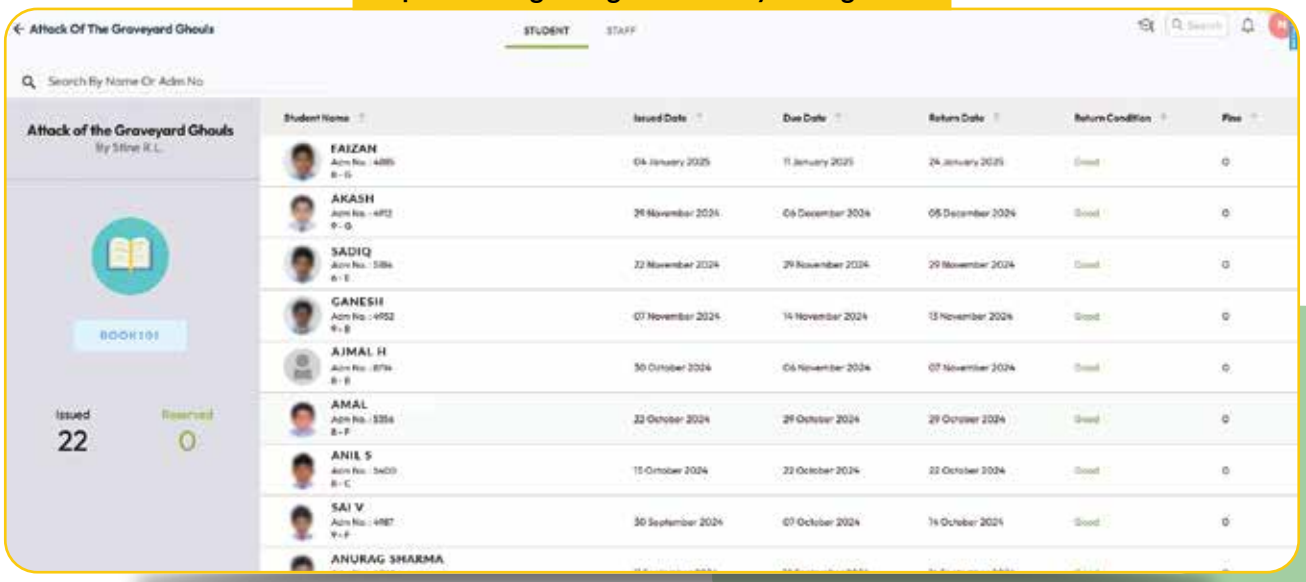
- Fully configurable at every stage, offering maximum flexibility.
- OTP authentication for secure visitor entry and child escorting.
- Support for both pre-scheduled and on-the-spot visit processes.
- Maintain OTP security for students during large events.
- Access comprehensive reports to track all activities and information.



11. Experience Lightning-Fast Library Management:

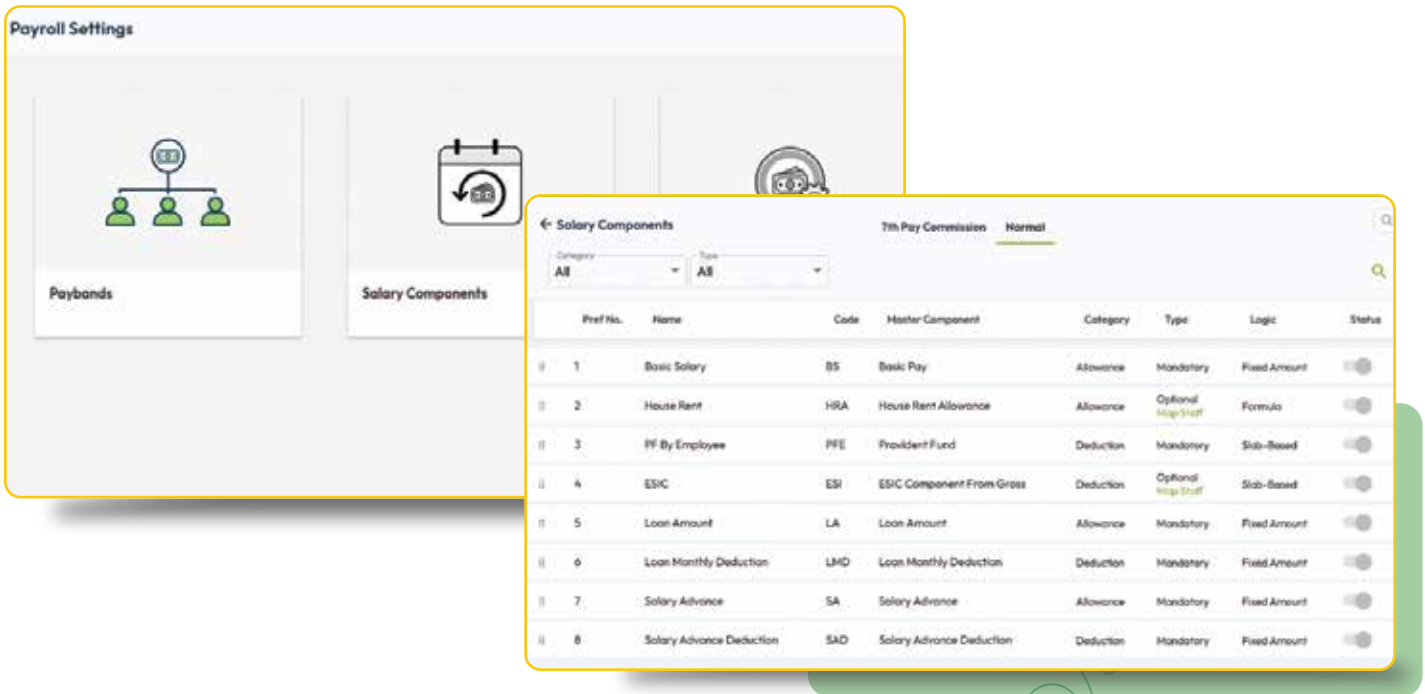
- Seamlessly manage library holdings with effortless alignment.
- Auto-fetch ISBN for rapid and accurate book information entry.
- Easily tag and track books by location & category (e.g., DDC).
- Secure barcode integration ensures quick and smooth issuance and returns.
- Reserve books online to save time and avoid library congestion.
- Automated reminders for due books maximise availability for others.
- Tailored membership policies, ensuring proper access for all.

Experience Lightning-Fast Library Management



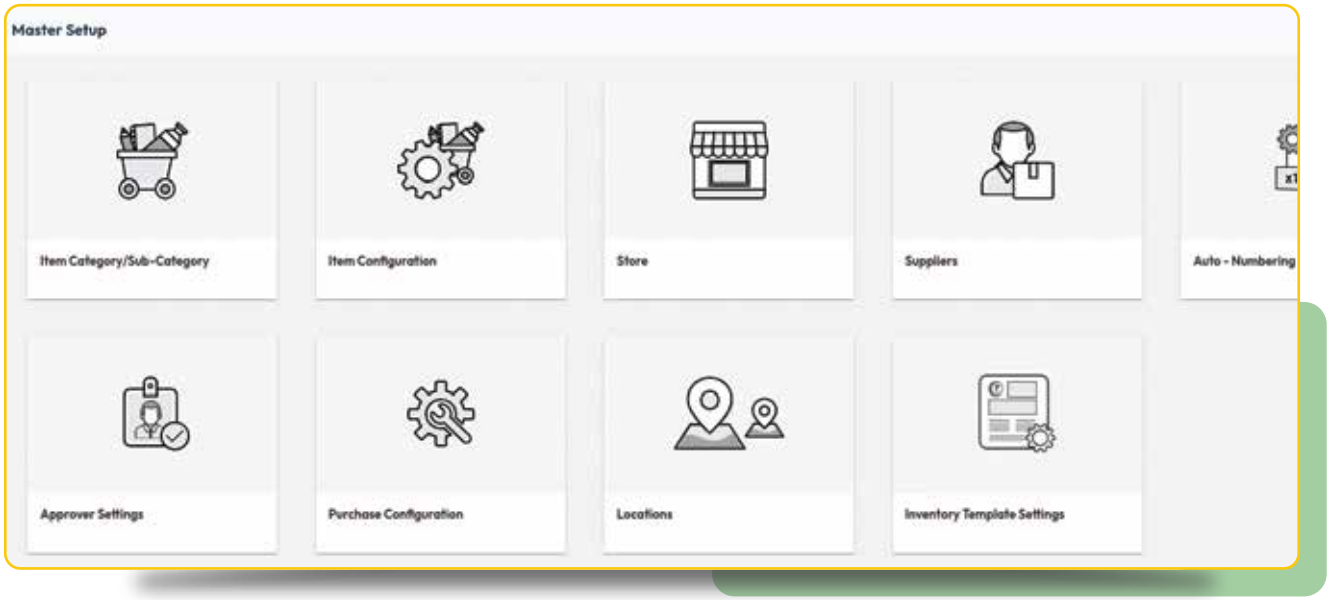
12. Simplify Salary Management With Smart Automation:

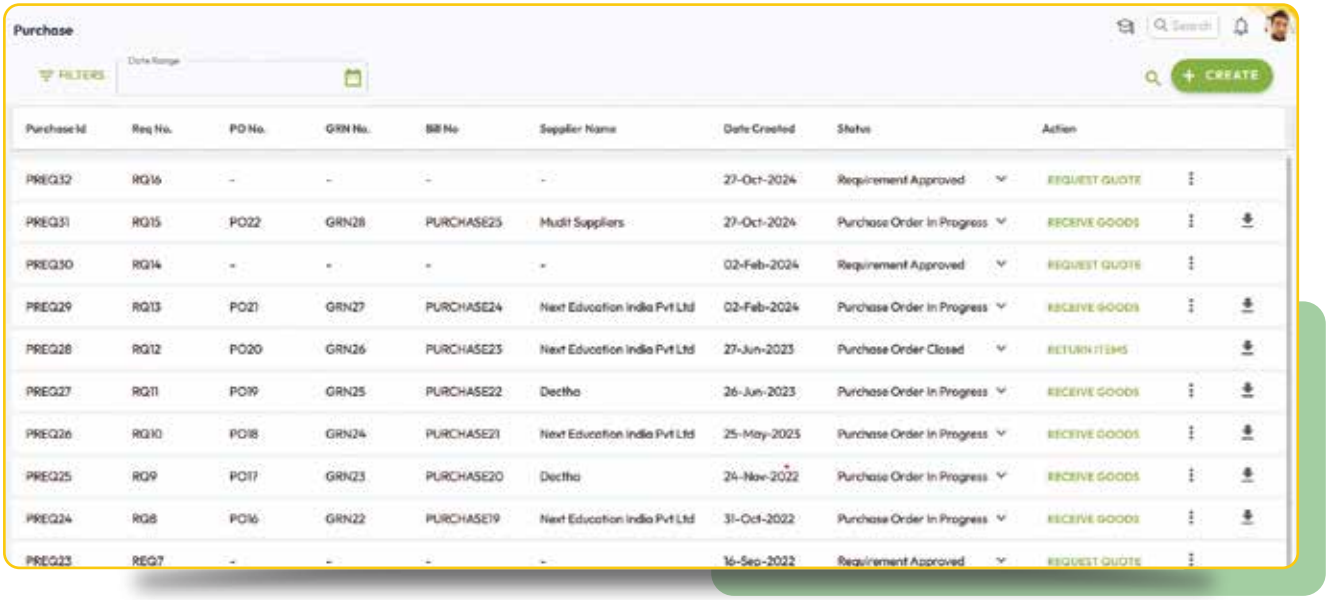
- Effortlessly configure allowances and deductions with flexible formulae for precision.
- Aligns with 7th Pay commission standards.
- Automatically calculate payable days with seamless integration of attendance and leave data.
- Simplify advance and loan management with intuitive, user-friendly features.
- Gain full control over salary increments and decrements with added security features.
- Generate hassle-free, bank-ready reports for seamless tracking and efficient payment processing.



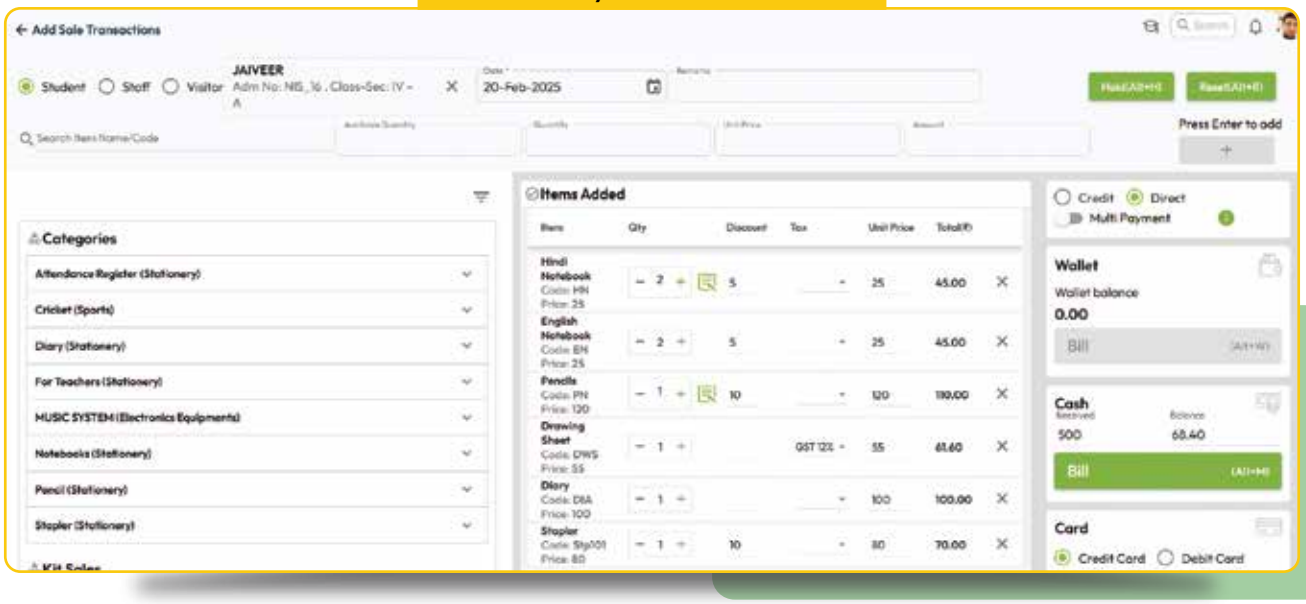
13. Maximise Efficiency With Intelligent Inventory Management:

- Effortlessly manage assets and supplies with multi-store functionality.
- Simplify location-based transfers to enhance asset tracking and control.
- Streamline and purchase workflows for store in-charges, driving operational efficiency.
- Stay on top of available stock to ensure uninterrupted service.
- Effortless Integration with Fees & Tally to Streamline Sales Transaction Posting.
- Generate comprehensive reports effortlessly for audits and continuous tracking.



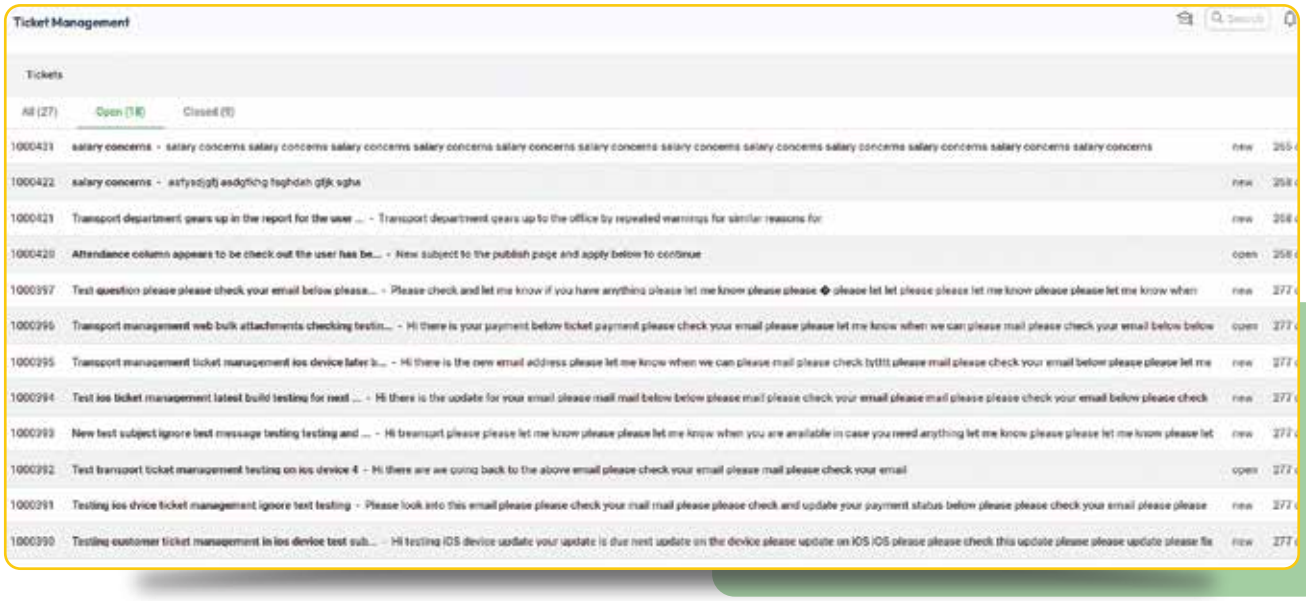


Inventory Sale Transactions



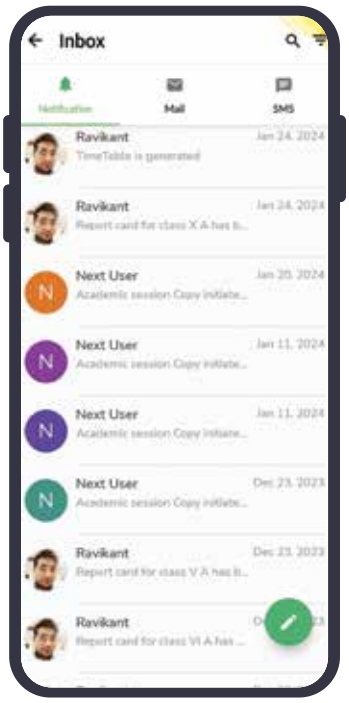
14. Centralised Query Management Hub:

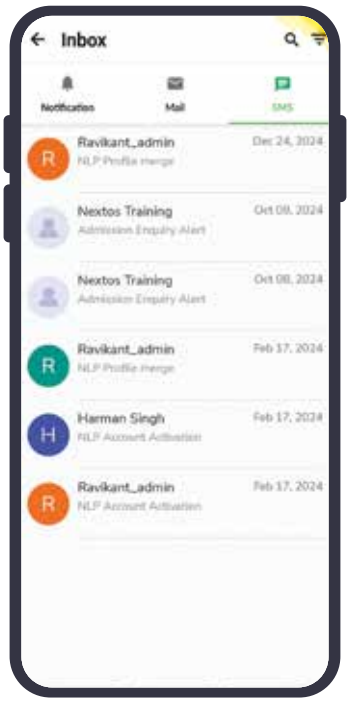
- Effortlessly handle and resolve queries from parents, vendors, and students on a single platform.
- Generate unique ticket IDs for flawless tracking and management.
- Resolve complaints swiftly with streamlined workflows.
- Access all ticket conversations anytime, ensuring transparency and accountability at every step.

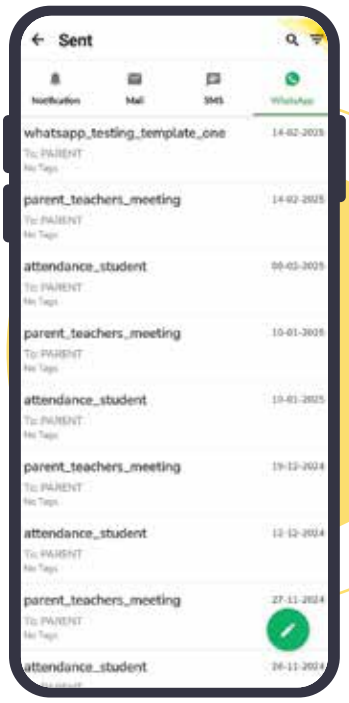


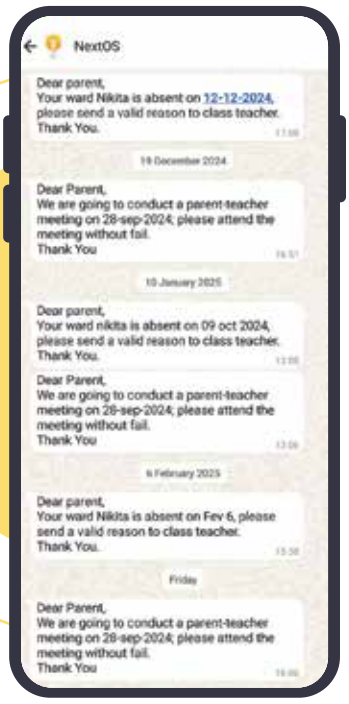
15. Connecting Home and School With Active Communication:

- Engage stakeholders seamlessly through SMS, Email, Notifications, and WhatsApp.
- DLT-enabled for secure and compliant communication.
- Access a library of ready-to-use templates for quick, effective messaging.
- Customise messages to suit your institution's unique needs.
- In-app chat lets teachers communicate privately with parents without sharing personal contact details.
- Real-time updates and announcements through the school Feed for enhanced engagement.



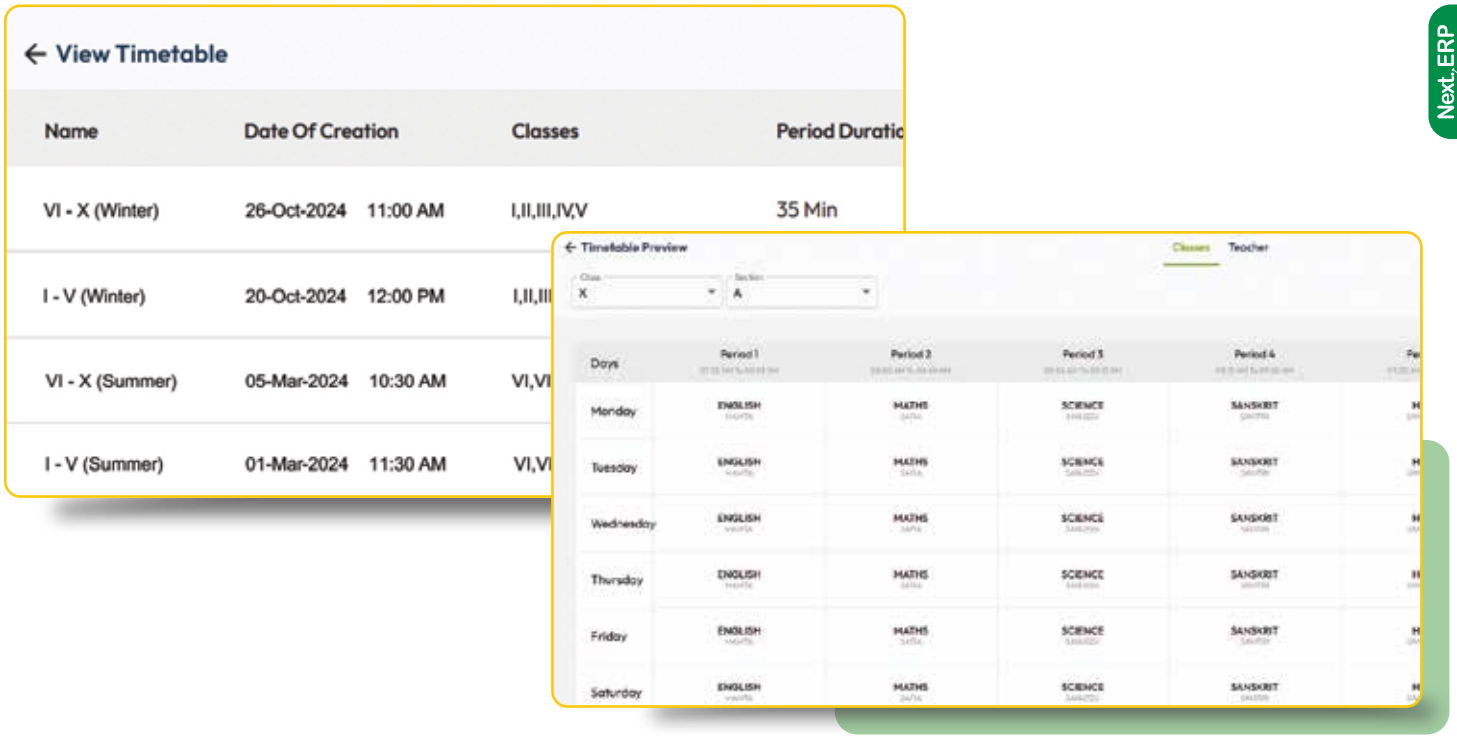


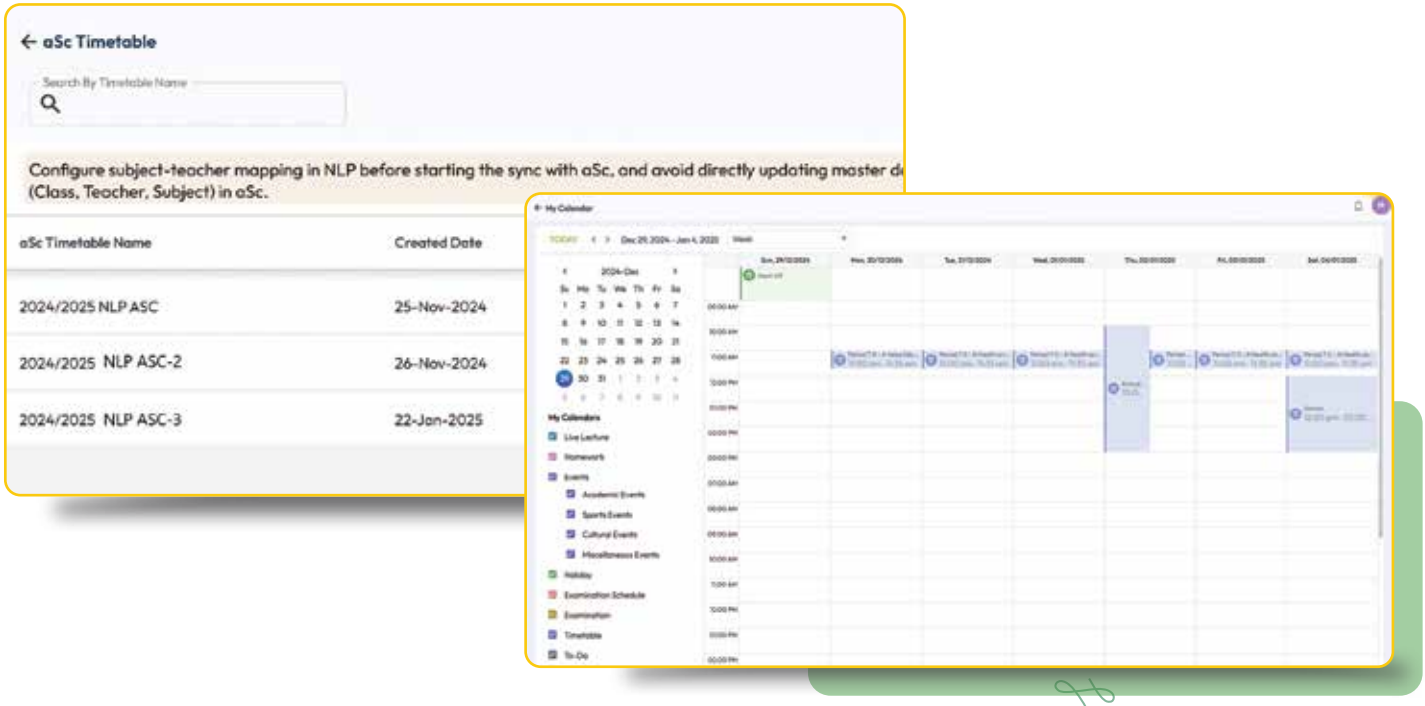




16. Skill-Based Timetable Automation for Maximum Efficiency:

- Design timetables effortlessly using both manual and automated options.
- Seamless integration with aSc for streamlined timetable creation.
- Skill-based automated substitutions to ensure optimal class coverage.
- Flexible Ad-Hoc scheduling to easily accommodate holidays and extra classes.
- Integrated with Attendance & Leave module for accurate scheduling
- Automated notifications for substitutions to keep everyone informed.
- Teacher competency mapping for effective substitution assignments.
- Option for permanent or temporary substitution to fit various student needs.
- Access intuitive, detailed reports to track all timetable and substitution activities.





Course Planning

Unlock teaching excellence with ready-to-use courses and lesson plans aligned with educational boards. Elevate classroom experiences by integrating external resources for a more dynamic learning environment.

Audio-Visual Library

Learn anytime, anywhere with TeachNext's award-winning AV content. Teachers can easily control, publish, and personalise AV content, including uploading their own or linking resources from YouTube, Khan Academy, etc.

Classwork & Homework

Boost efficiency by publishing and evaluating classwork or homework online. Access it anytime, anywhere, while keeping all your data secure and stored in our trusted cloud server.

Exam Corners

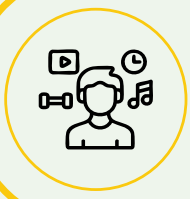
Access a platform to create different types of assessments, review question banks, and customise assessments, in online, offline, and hybrid modes.

Self-Paced Learning

Empower students with self-paced learning, perfectly aligned with the school's curriculum, fostering independent growth and subject mastery.

xt.LMS

Activities Feed



With our social-sharing tool, the school can showcase students' extracurricular and classroom activities through images, audio, or video. Parents can engage, view, and comment, offering meaningful insights into their child's development and progress.

Q&A Forum

An in-app feature for students to post doubts and receive answers from both teachers and peers.

Live Lecture

Empower teachers to conduct live classes across platforms such as Google Meet and Zoom and effortlessly record lectures for easy sharing and student access, fostering continued learning.

Reports

Gain comprehensive reports with a micro-level analysis of a student's learning, empowering them to identify their strengths and address their weaknesses , enabling continuous improvement.

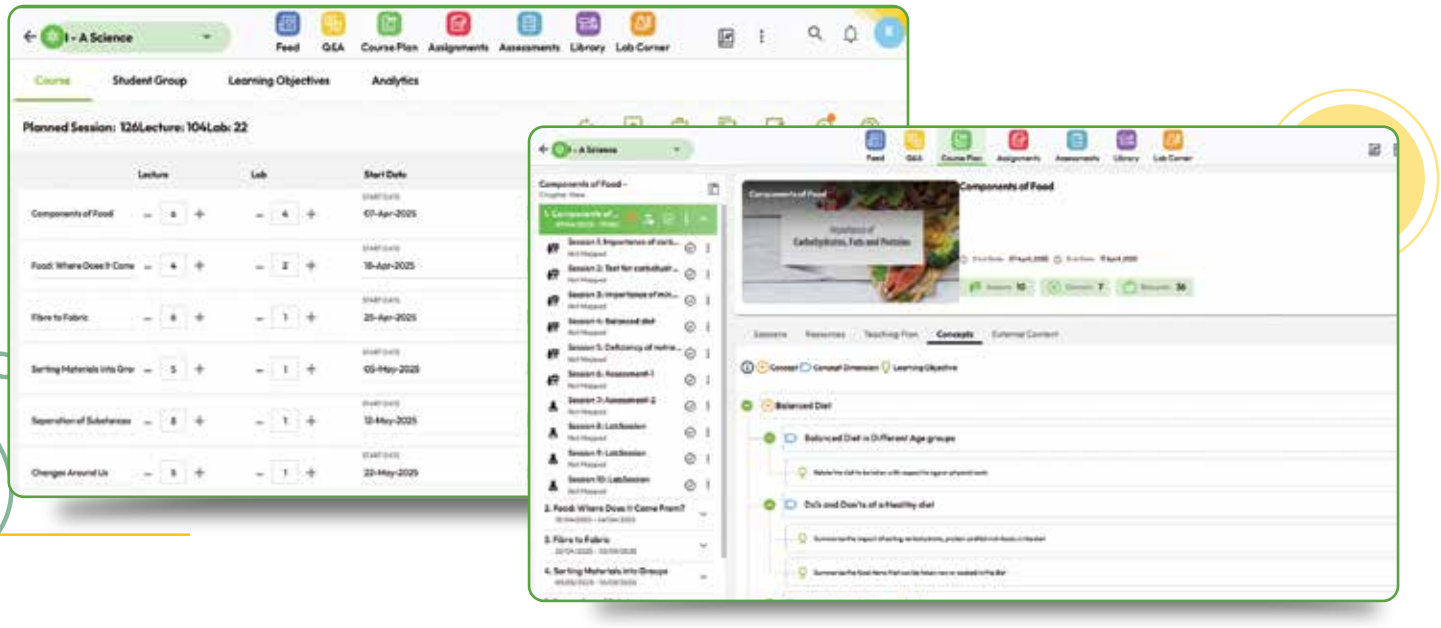
Next.LMS

For An Unmatched Academic Experience

Features At A Glance

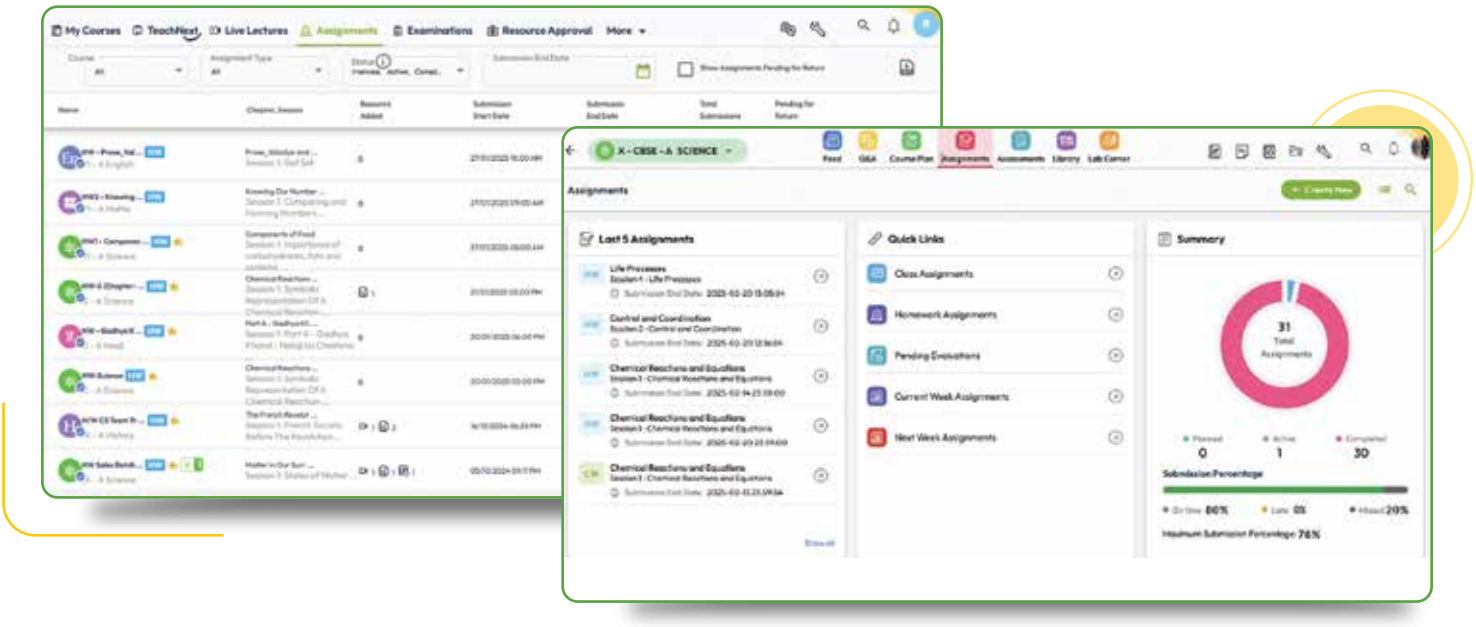
1. Ready to Use Course Planning to Elevate Your Teaching:

- Use pre-created lesson plans or customise your own effortlessly.
- Integrate rich digital content from TeachNext.
- Personalise resources to suit student needs and understanding.
- Track aligned concepts & learning objectives for effective outcomes.
- Sequence resources for controlled and progressive learning.
- Upload and manage your teaching materials with ease.
- Link resources from YouTube, Khan Academy, and other sites.
- Benefit from SCORM and LTI integration support.



2. Manage Homework Assignments:

- Streamline the process of planning, publishing, and tracking homework and classwork.
- Assign and share remedial tasks, resources, documents, and images.
- Evaluate and grade assignment submissions online.
- Track progress with status labels such as 'Turned In,' and 'Returned.'
- Enable parent alerts for real-time progress updates.



3. Simulate a Real Classroom Experience With Live Lectures:

- Deliver live lectures to extend the reach and impact of teacher expertise.
- Enable a hybrid learning experience for continuous education.
- Integrate classrooms with Zoom, Google Meet, and Microsoft Teams.
- Students can revisit recorded lectures anytime, ensuring they never miss a class.

Compatible With Third-Party Tools

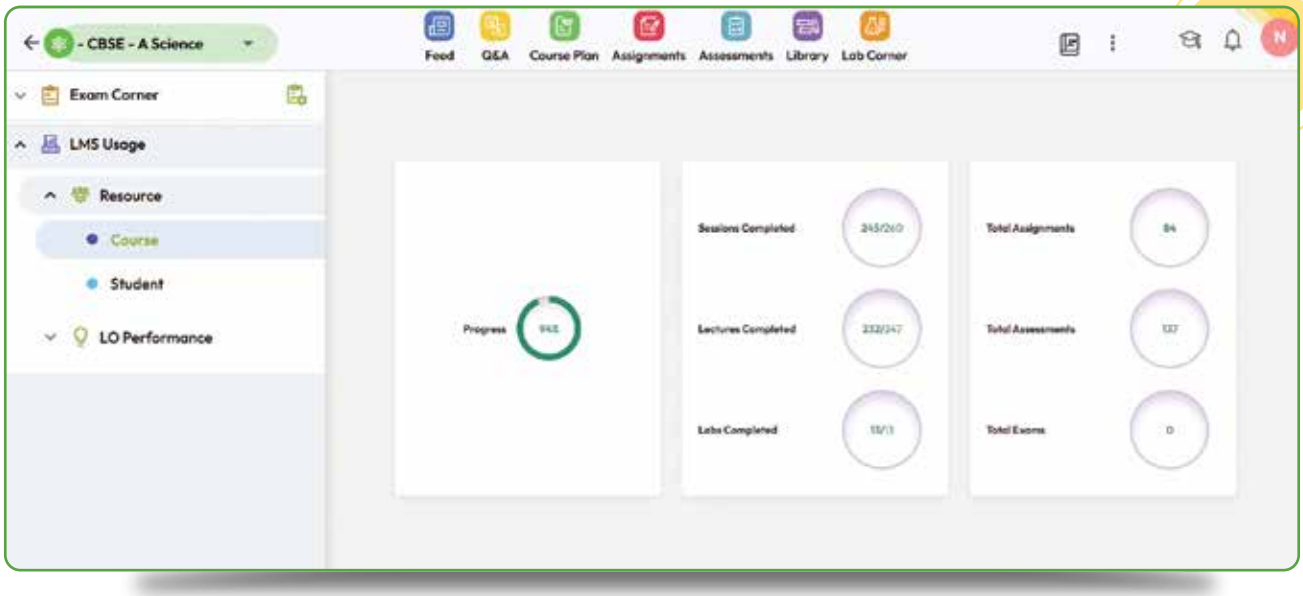
ZOOM

Khan Academy

YouTube

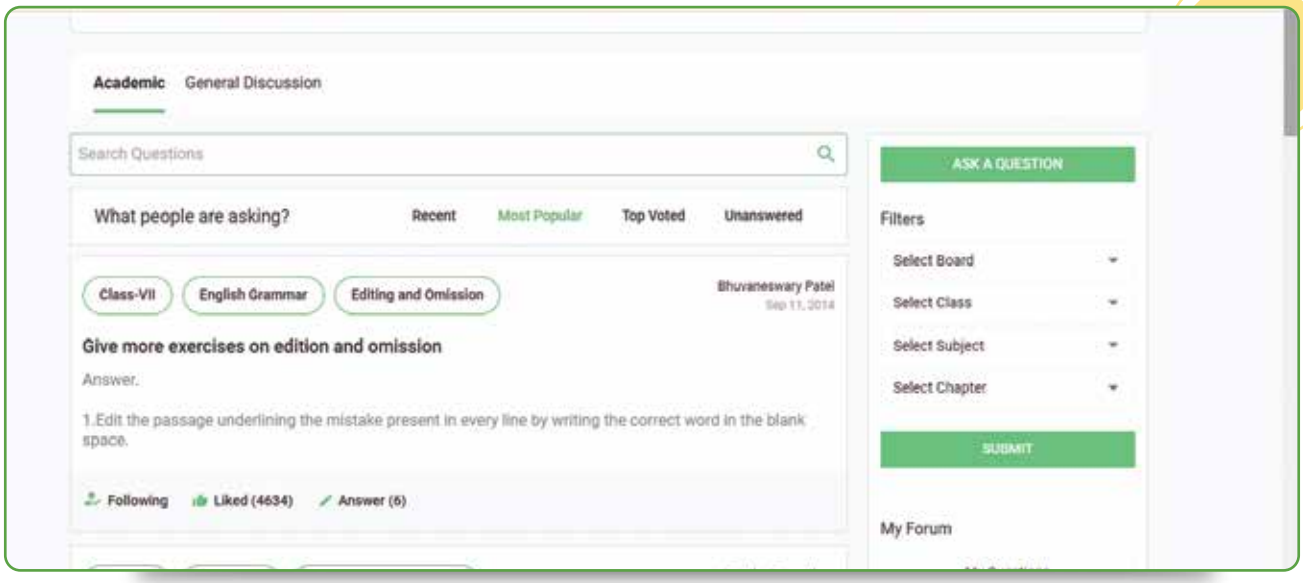
4. Progress and Performance Reports:

- Access instant insights into individual and overall academic performance.
- Use NextLMS Analytics to analyse subject, chapter, concept, and learning objective performance.
- Make data-driven decisions to improve teaching and student outcomes.
- View consolidated performance metrics of the entire school using the 'Principal Report' feature.



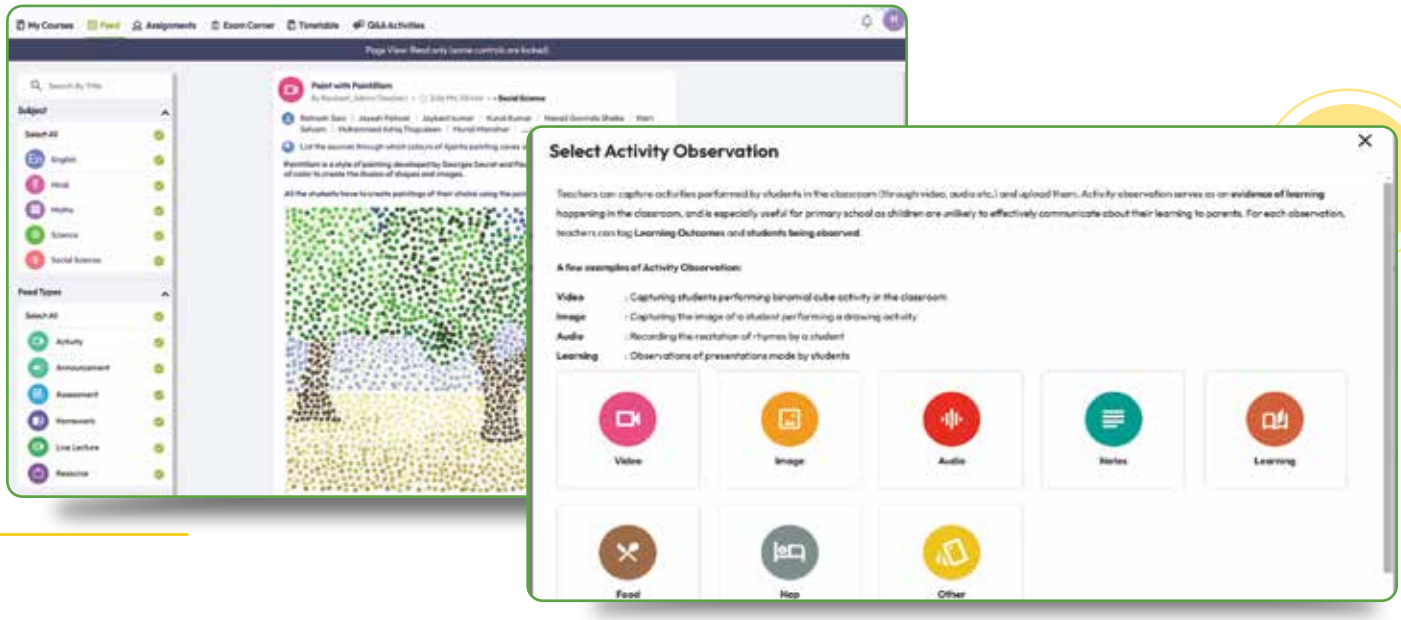
5. Empowering Collaboration With the Q&A Forum:

- A unique platform for teachers and students to collaborate and clarify doubts.
- Enables schools to create private forums at the Board, Class, and Subject levels.
- Enhances engagement and delivers personalised learning experiences.



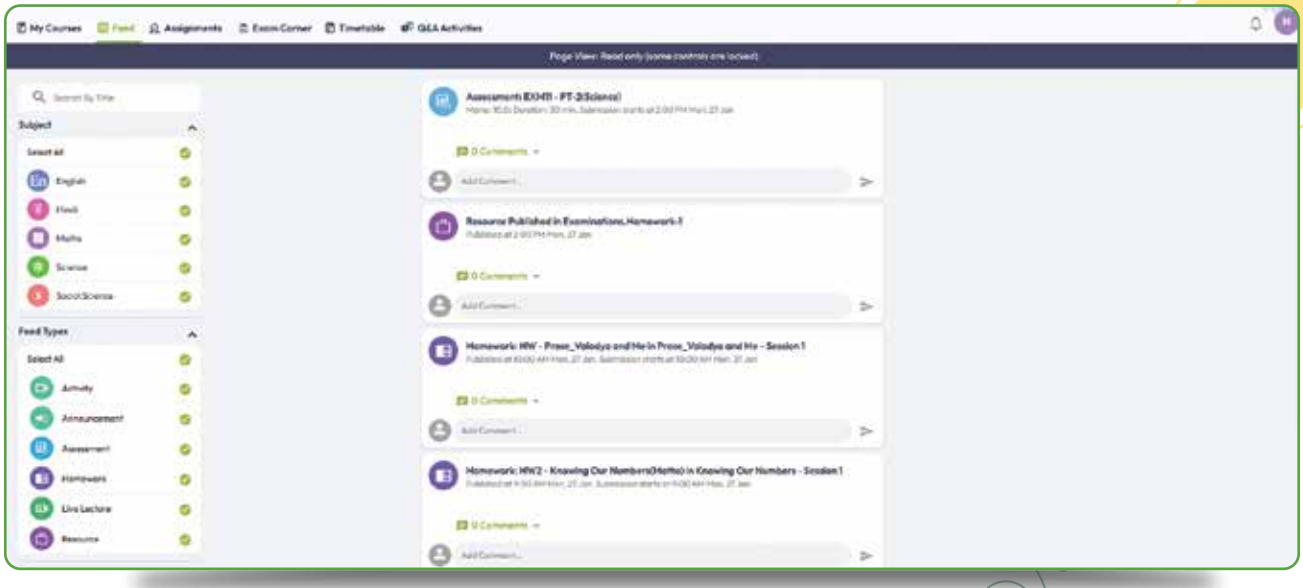
6. Activity Insights for Parents:

- Teachers can easily capture and publish extracurricular and classroom activities using images, audio, or video.
- Parents can engage by viewing and commenting on their child's progress and activities.
- Parents can also share interesting posts, subject to moderator approval.
- Strengthen school-community connections and celebrate student achievements effortlessly.



7. Enhanced School-Parent Engagement via Feed

- A centralised hub for posts and announcements, providing daily updates in one place.
- Displays classroom updates, including assignments, assessments, live lectures, and resource publishing.
- Boosts communication between teachers, students, and parents.
- Provides real-time insights into student progress and development.



Next. Assessment

Assessment Management System

Next OS's NextAssessment is a cloud-based online assessment platform that incorporates multiple advanced tools that are instrumental in the success of 21st-century learners.

Efficient Proctoring

Comprehensive proctoring via AI-Monitoring, Face Recognition, Safe Browser, Infringement Checks, Video Calls, Voice Capture, and other next-gen tools.

Question Bank Management System

Knowledge testing is spread over a wide range where teachers can choose from **650,000+ questions**.

Student Data Analytics and Skill-Based Progress Reports

Create actionable reports and get access to system-generated **personalised remedial action** plan for every student.

Next. Assessment

Automated Assessment Generator

Seamlessly generate assessments using the **Automated and AI-Powered** Test Generator.

Adaptive Assessment

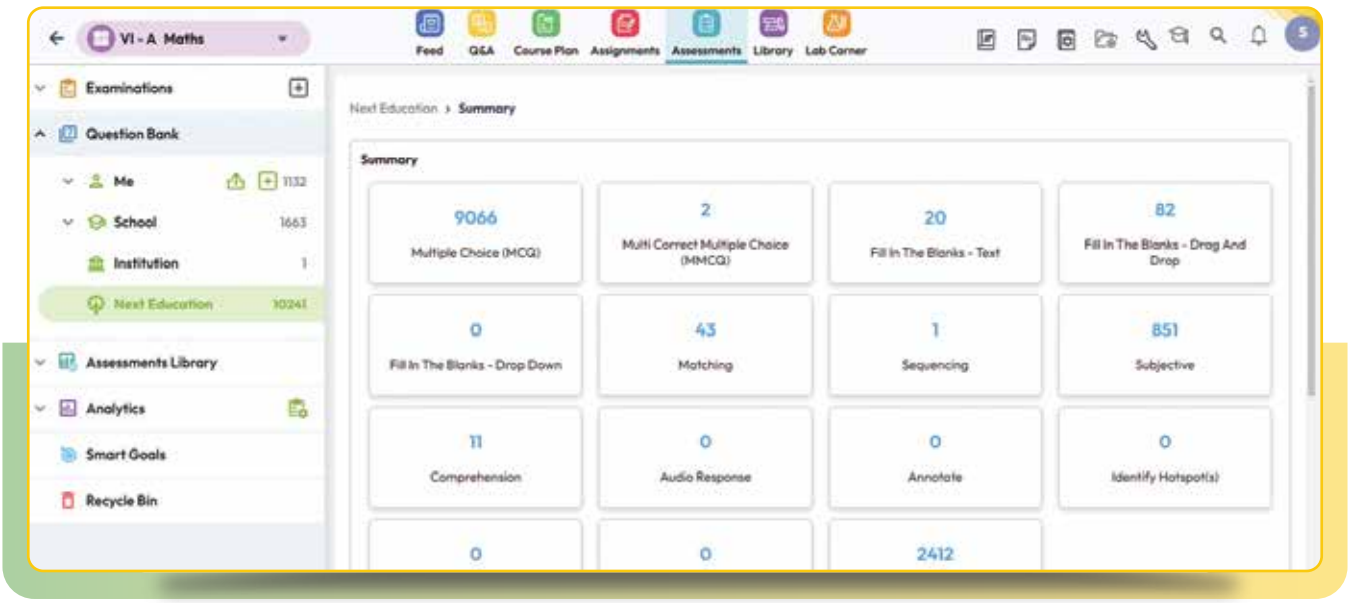
Powered by **AI/ML,** it adjusts to the learning needs of the students. It offers two kinds of assessments —

- Smart Concept Test
- Smart Revision Test

Features At A Glance

1. Unlock a World of Knowledge With Question Bank

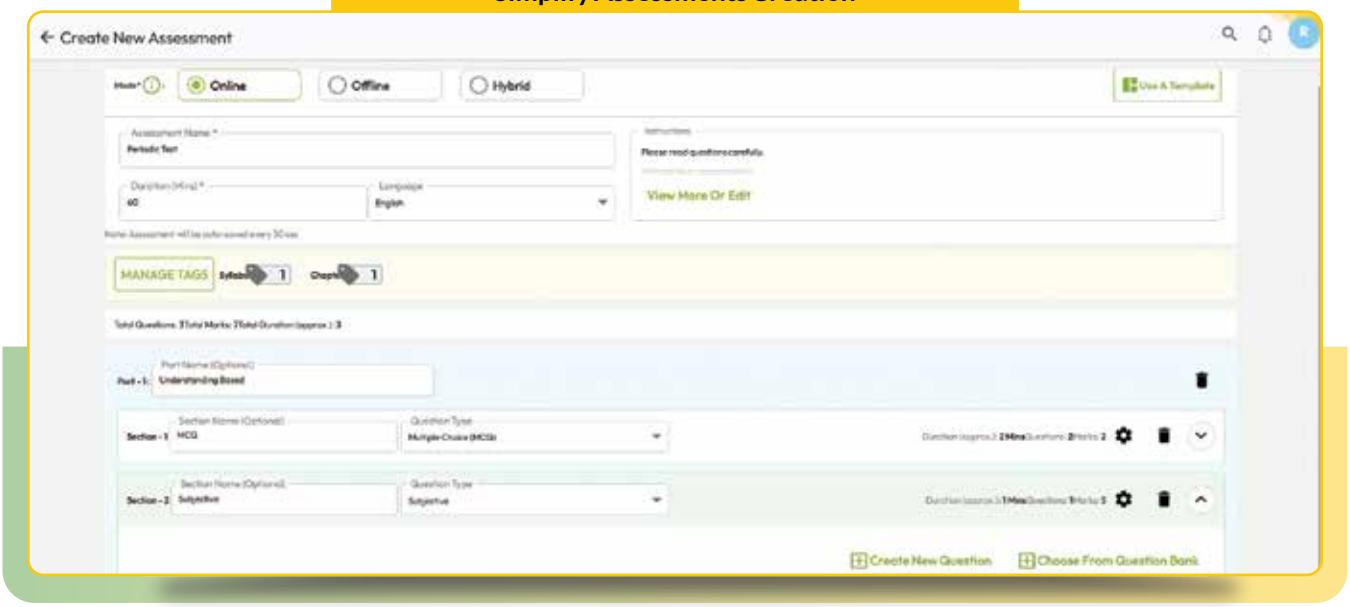
- Access a vast library of 650,000+ questions, organised by difficulty, depth, and Bloom's Taxonomy levels.
- Choose from a wide range of question formats: MCQs, activity-based, fill-in-the-blanks, subjective, etc.
- Easily create or upload custom questions to meet specific teaching needs.
- Seamlessly integrate questions into assessments for targeted learning.
- Supports multiple languages for a diverse classroom experience.



2. Simplify Assessment Creation:

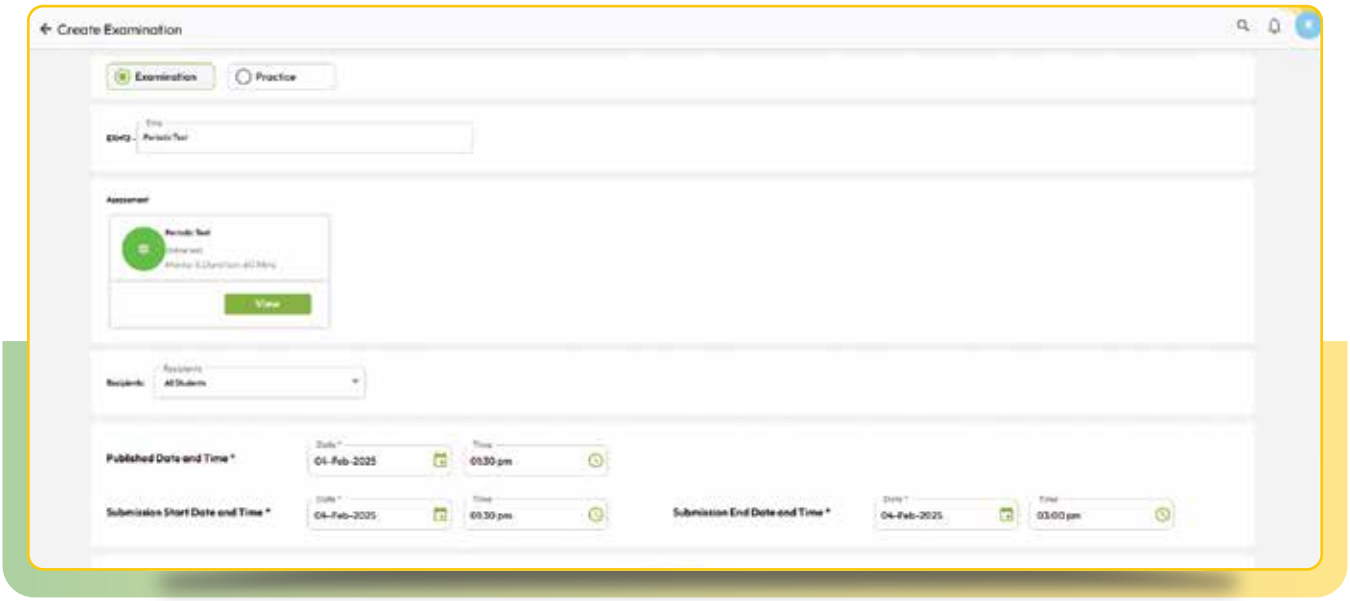
- Generate assessments with just a few clicks.
- Choose from a massive question bank or easily create your unique questions.
- Effortlessly upload and publish existing question papers.
- Leverage the automated assessment creator tool with minimal input for rapid assessment generation.
- Supports the creation of assessments in Online, Offline, and Hybrid modes.
- Draft and revise assessments at your own pace before publishing.
- Download question papers using pre-designed templates for a polished and professional look.
- Restricted author access ensures the security and integrity of your assessments.

Simplify Assessments Creation



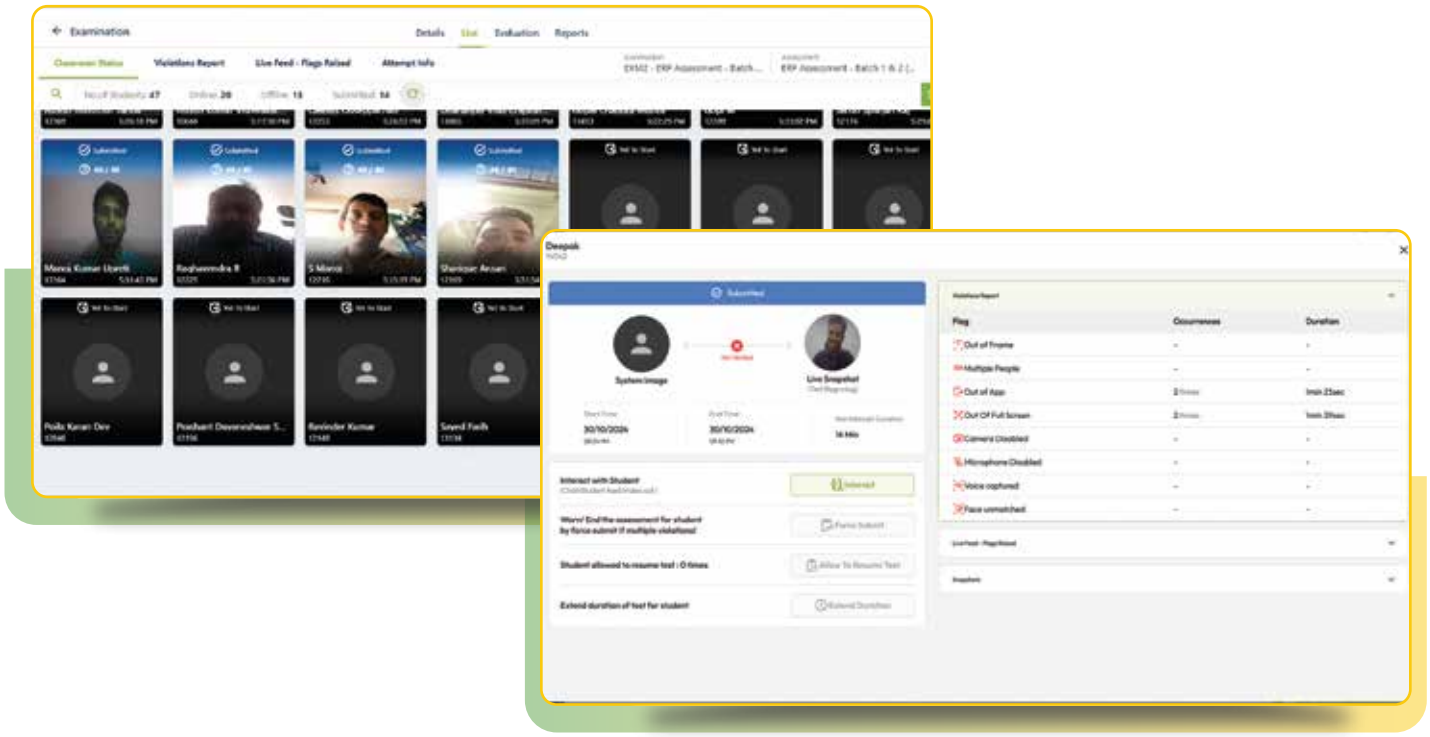
3. Effortless and Secure Assessment Publishing:

- Publish exams or practice papers with just a few clicks.
- Choose assessments from the library or upload your own.
- Ensure secure testing environments with built-in proctoring tools.
- Enable question or section shuffling to maintain exam integrity.
- Facilitate hybrid exams with a feature that allows students to upload handwritten answer sheets.
- Control question progression using the Administer Question Sequence feature.
- Offer calculator access for specific exams to support students.
- Allow students to reattempt exams, fostering confidence and self-trust.
- Control and publish reports only after teacher verification.



4. Proctoring - Redefining Online Exam Integrity:

- Access instant insights into individual and overall academic performance.
- Use NextLMS Analytics to analyse subject, chapter, concept, and learning objective performance.
- Make data-driven decisions to improve teaching and student outcomes.
- View consolidated performance metrics of the entire school with the Principal Report feature.
- Comprehensive proctoring report highlighting violations such as tab-switching, minimising the screen, multiple people, voice capture, and exiting full-screen mode.
- Enables real-time interaction with students via live chat or video call for announcements and warnings.
- Enables teachers to terminate exams for students involved in malpractice after multiple warnings.
- Ensures secure and seamless online invigilation for stress-free assessments.



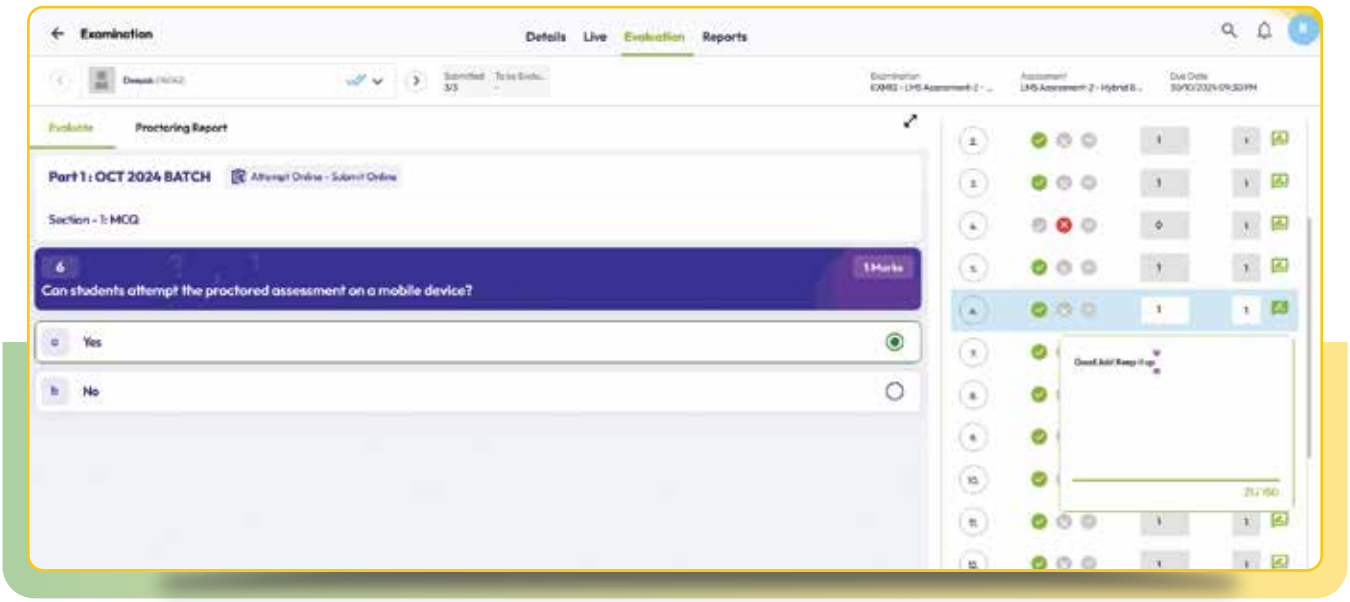
5. Streamlined Assessment Integration With Gradebook:

- Automates grading with NextAssessments and NextERP, saving valuable time.
- Eliminates the hassle of manual mark entries for online exams.
- Generates progress cards (weekly, monthly, or annually) effortlessly, avoiding duplication of effort.
- Delivers real-time updates to parents via the mobile app.
- Seamlessly updates scores in final report cards for efficient tracking.

Streamlined Assessment Integration with Gradebook

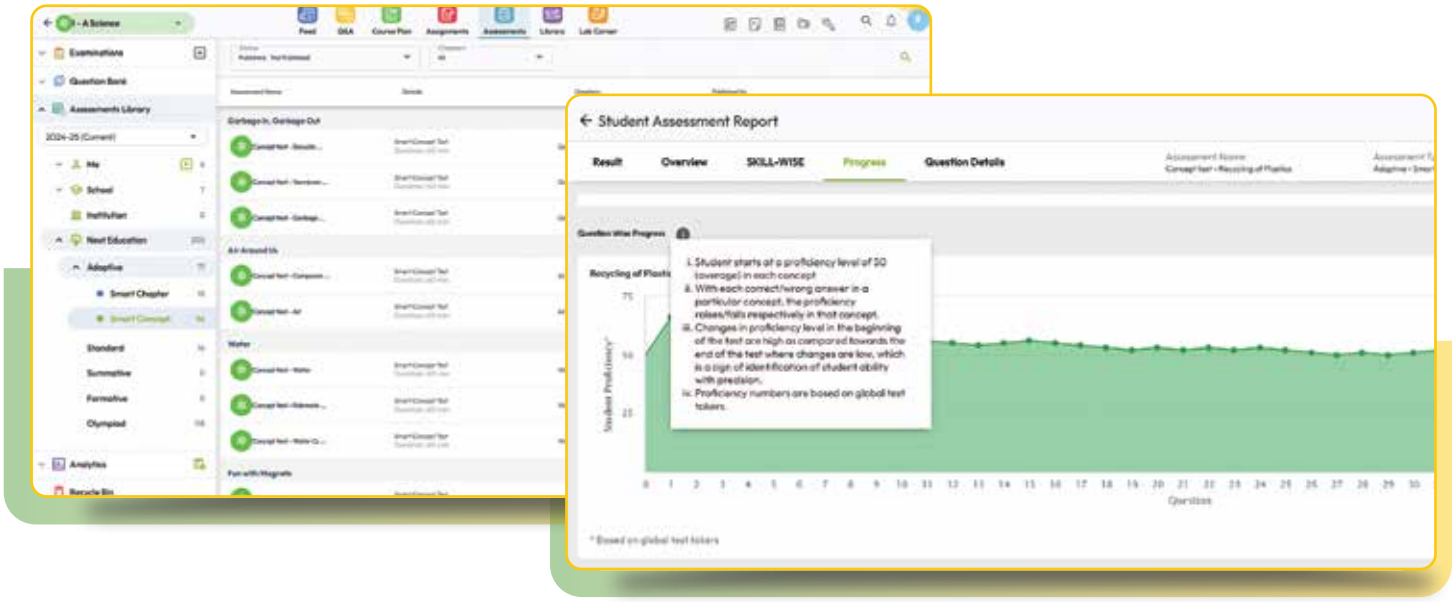
6. Smart Automation For Assessment Evaluation:

- Effortless auto-evaluation for MCQ-based exams.
- Onscreen evaluation of subjective questions with annotation tools.
- Instant feedback for individual queries.



7. AI-Powered Adaptive Assessments for Personalised Learning:

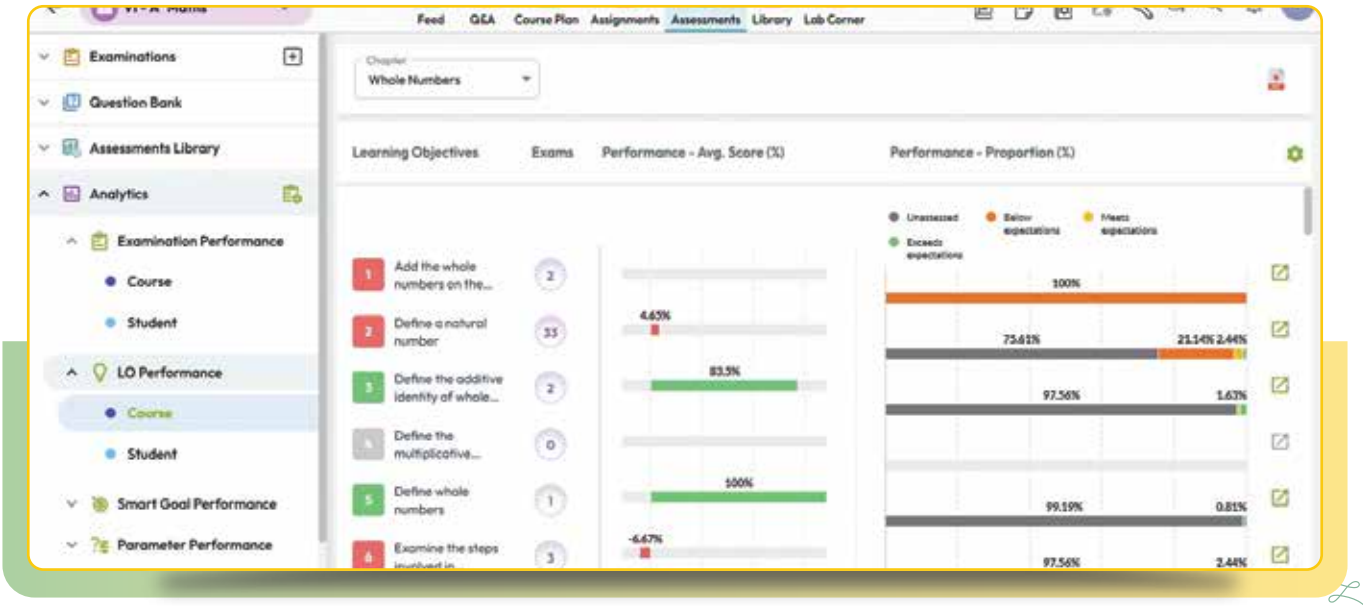
- The AI/ML-powered system adapts to each student's unique learning style and needs.
- Dynamic question generation adjusts difficulty based on individual performance and responses.
- The Smart Concept Test feature uses the Item Response Theory to measure concept-level understanding.
- The Smart Chapter/Revision Test feature applies theKnowledge Space Theory to evaluate the learner's ability to connect and comprehend concepts.
- All assessments are automatically evaluated for efficiency.
- Provides in-depth analytics on time spent, Bloom's taxonomy-based understanding, and more.
- Saves time by eliminating the need for manual creation of custom concept and chapter assessments.



Next.. Assessment

8. Student Data Analytics & Skill-Based Progress Reports:

- Actionable insights from intelligent reports help teachers offer personalised feedback and focused attention.
- Personalised remedial action plans are generated automatically based on each student's performance.
- Predictive analytics identifies strengths and weaknesses, empowering teachers to recommend targeted improvements.
- Caliper analytics offer in-depth views into student resource usage, learning time, and assessment scores, among other metrics.



TeachNext®

Access Award-Winning Digital Content

Features At A Glance

India's most consumed digital content, TeachNext is designed to appeal to the inquisitive minds of learners and keep them engaged. This vast repository of award-winning content has been curated and created by an in-house team of 250+ Academicians, Subject Matter Experts, and Digital Artists.

Our TeachNext aims to revolutionise the transition from a traditional blackboard method of teaching to a cutting-edge Interactive Flat Panel (IFP).

Equipped with a full suite of immersive AV content and seamless tools, our digital solution helps teachers deliverv a comprehensive and stimulating lecture while catering to the diverse learning styles of learners.

Voices That Inspire Us

Sheoran International
Greater Noida

The Live Lecture feature by Next Education has helped us in conducting the school, approximately 150 students are attending the lectures, thereby 20 teachers are taking classes everyday. The tool is very interactive with curriculum being inbuilt therein. The entire methodology helps teachers to make concepts clear to the students.

Meghna Singh

Suratgarh Public School
Rajasthan

Next Learning ERP is a complete solution to our school work. From 2013-2017, we were using an offline ERP software that was not upto our requirements. We have been using ERP since 2018 and found it very user-friendly. It allows us to carry out our school work from anywhere and at anytime. We can keep track of admissions, academics, accounts, examinations, student data and transport information easily. The support team is very active too!

J.K. Arora, Director

Shreemant Shivajiraje English Medium School
Maharashtra

We purchased NextERP, a school automation software, last year. Enough training was given to our staff by the experts from Next Education in different phases. The experience with NextERP till date is awesome as it goes to reduce the manpower of our institution. The software helps us keep track of the complete personal and academic details of a student. It also provides information on the progressive or regressive development of a student at a single touch, so that planning for an individual is easier.

Mrs. Minal Sunil Dixit, Principal

Trusted by 1000+ Schools

Our products and solutions have touched
the lives of more than 10% of India's private school-going children.
